About us

Recreation

East Bay

Lafayette Reservoir and San Pablo Reservoir offer spots to picnic, hike, boat and fish. Eighty miles of beautiful East Bay trails await.

Sierra foothills

Ninety miles from the Bay Area lies the heart of EBMUD's drinking water supply. Visit Pardee Reservoir or Camanche Reservoir.

#3 TRANSPARENCY

1. EBMUD dammed the **Molekumne River** in 1929 and brings it to us in pipes.

Now, the East Bay is too big and the Mokelumne is too small in droughts.

2. EBMUD today mixes **Sacramento River** water into the pipes.

They have to spend maybe a billion \$ to disinfect the Sacramento water.

#4 WATER RATES

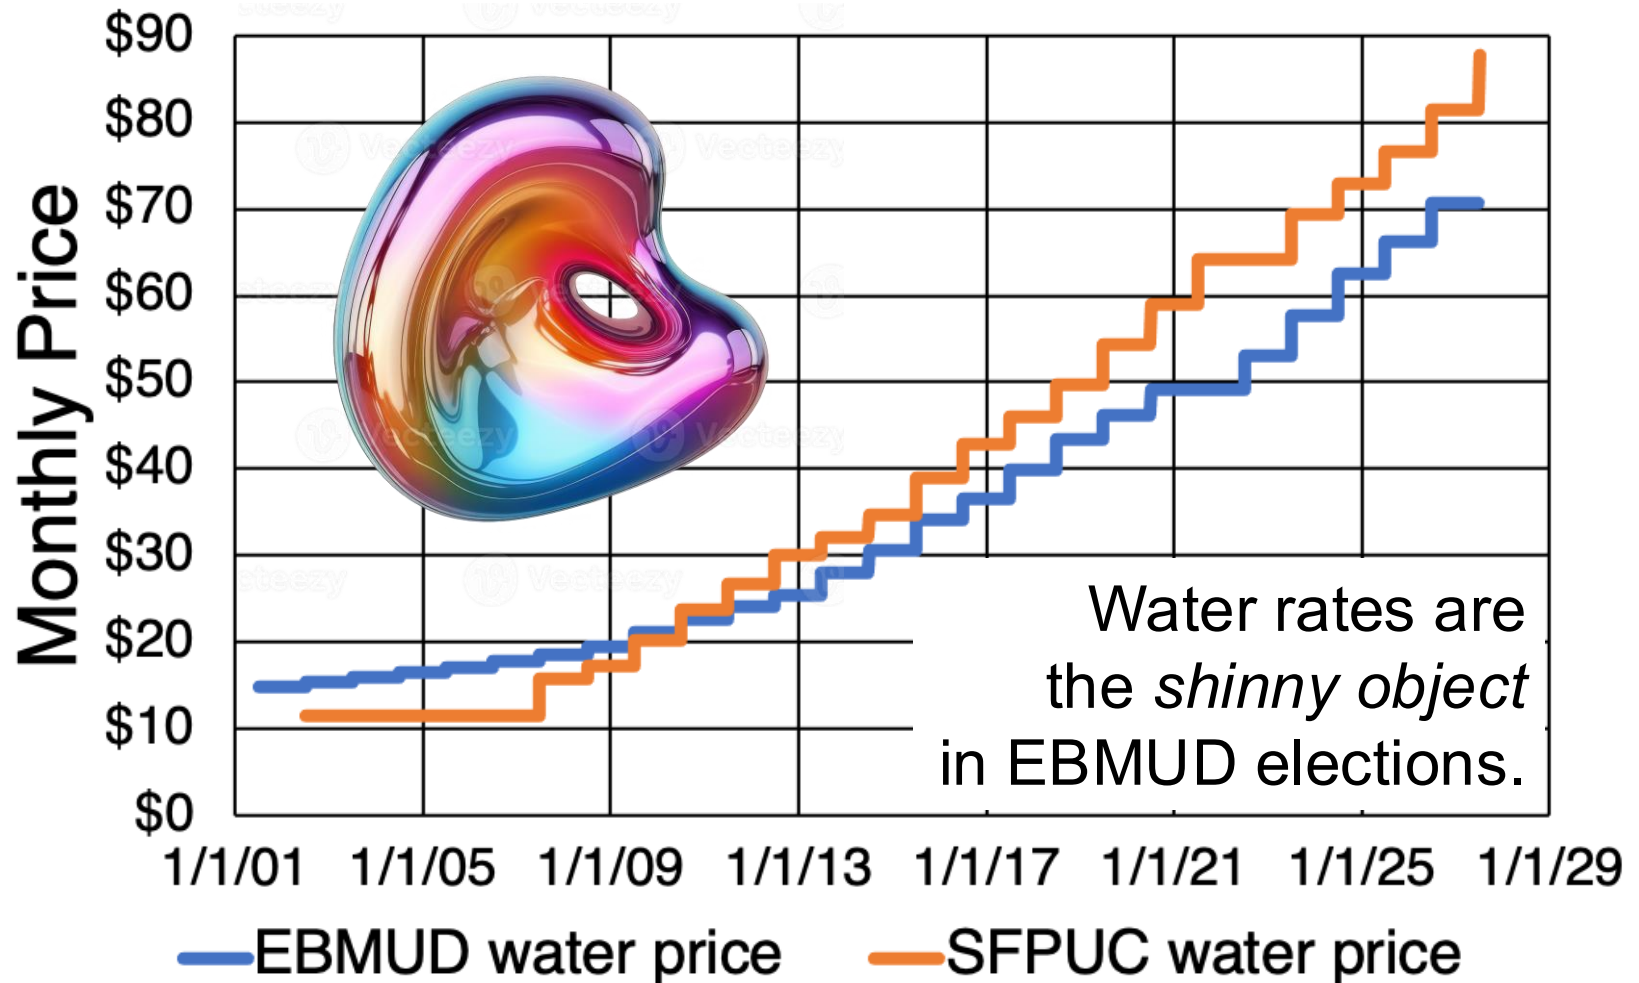

Things are not so bad, because EBMUD water costs less and prices rise slower than San Francisco water.

East Bay politicians complain about water prices just to get your vote.

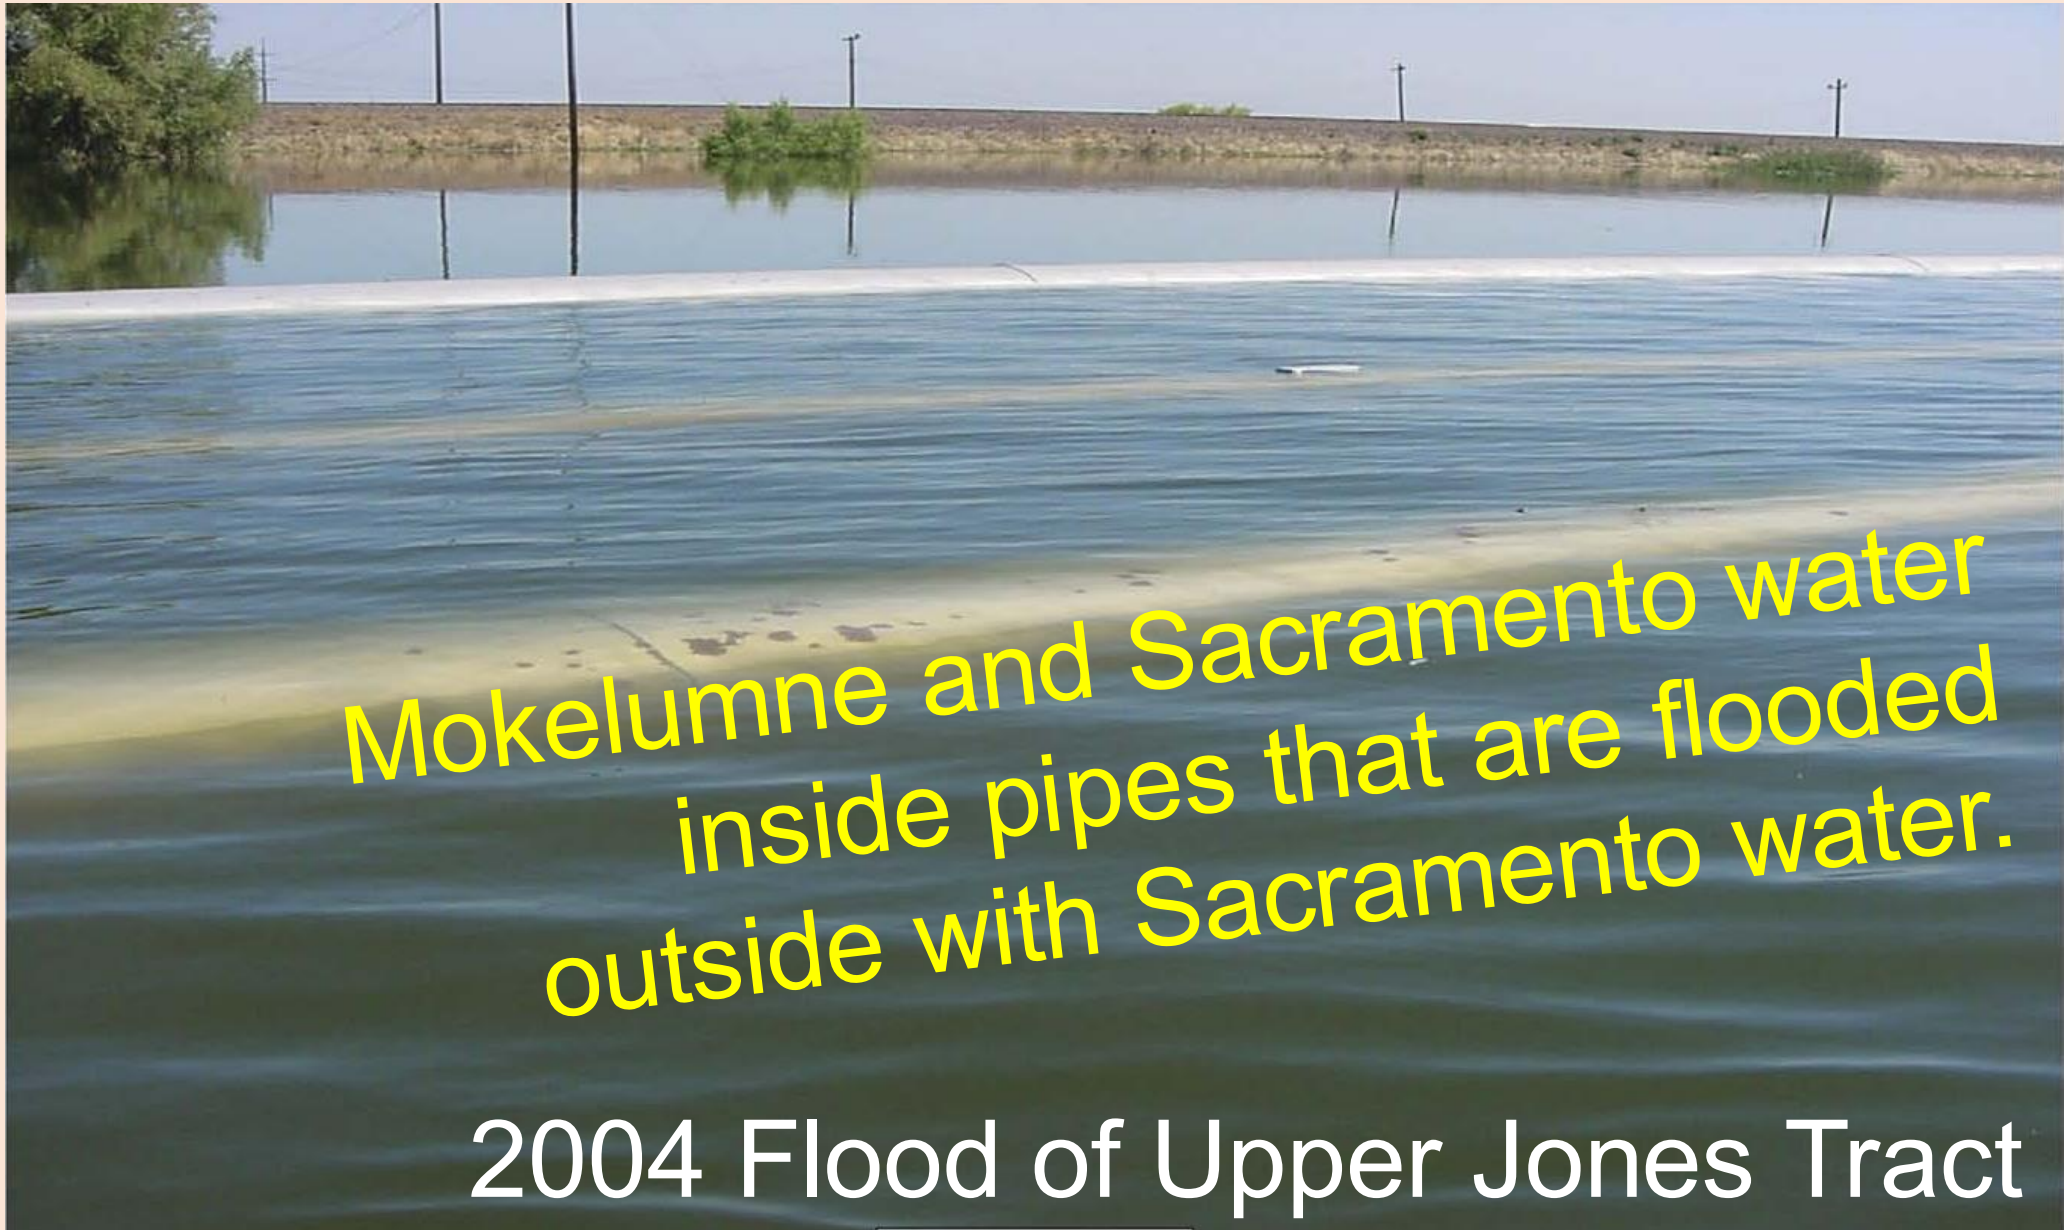

Politicians can't fix water rates, because (1) EBMUD has to serve fast-growing parts of Contra Costa county, but (2) the Mokelumne River cannot grow to serve them (3) so EBMUD has to pay to use Sacramento water.

EBMUD v SFPUC Water

Single Family, 5/8" Meter, 5 Units Flow Monthly

#5 POSSIBLE CATASTROPHE?

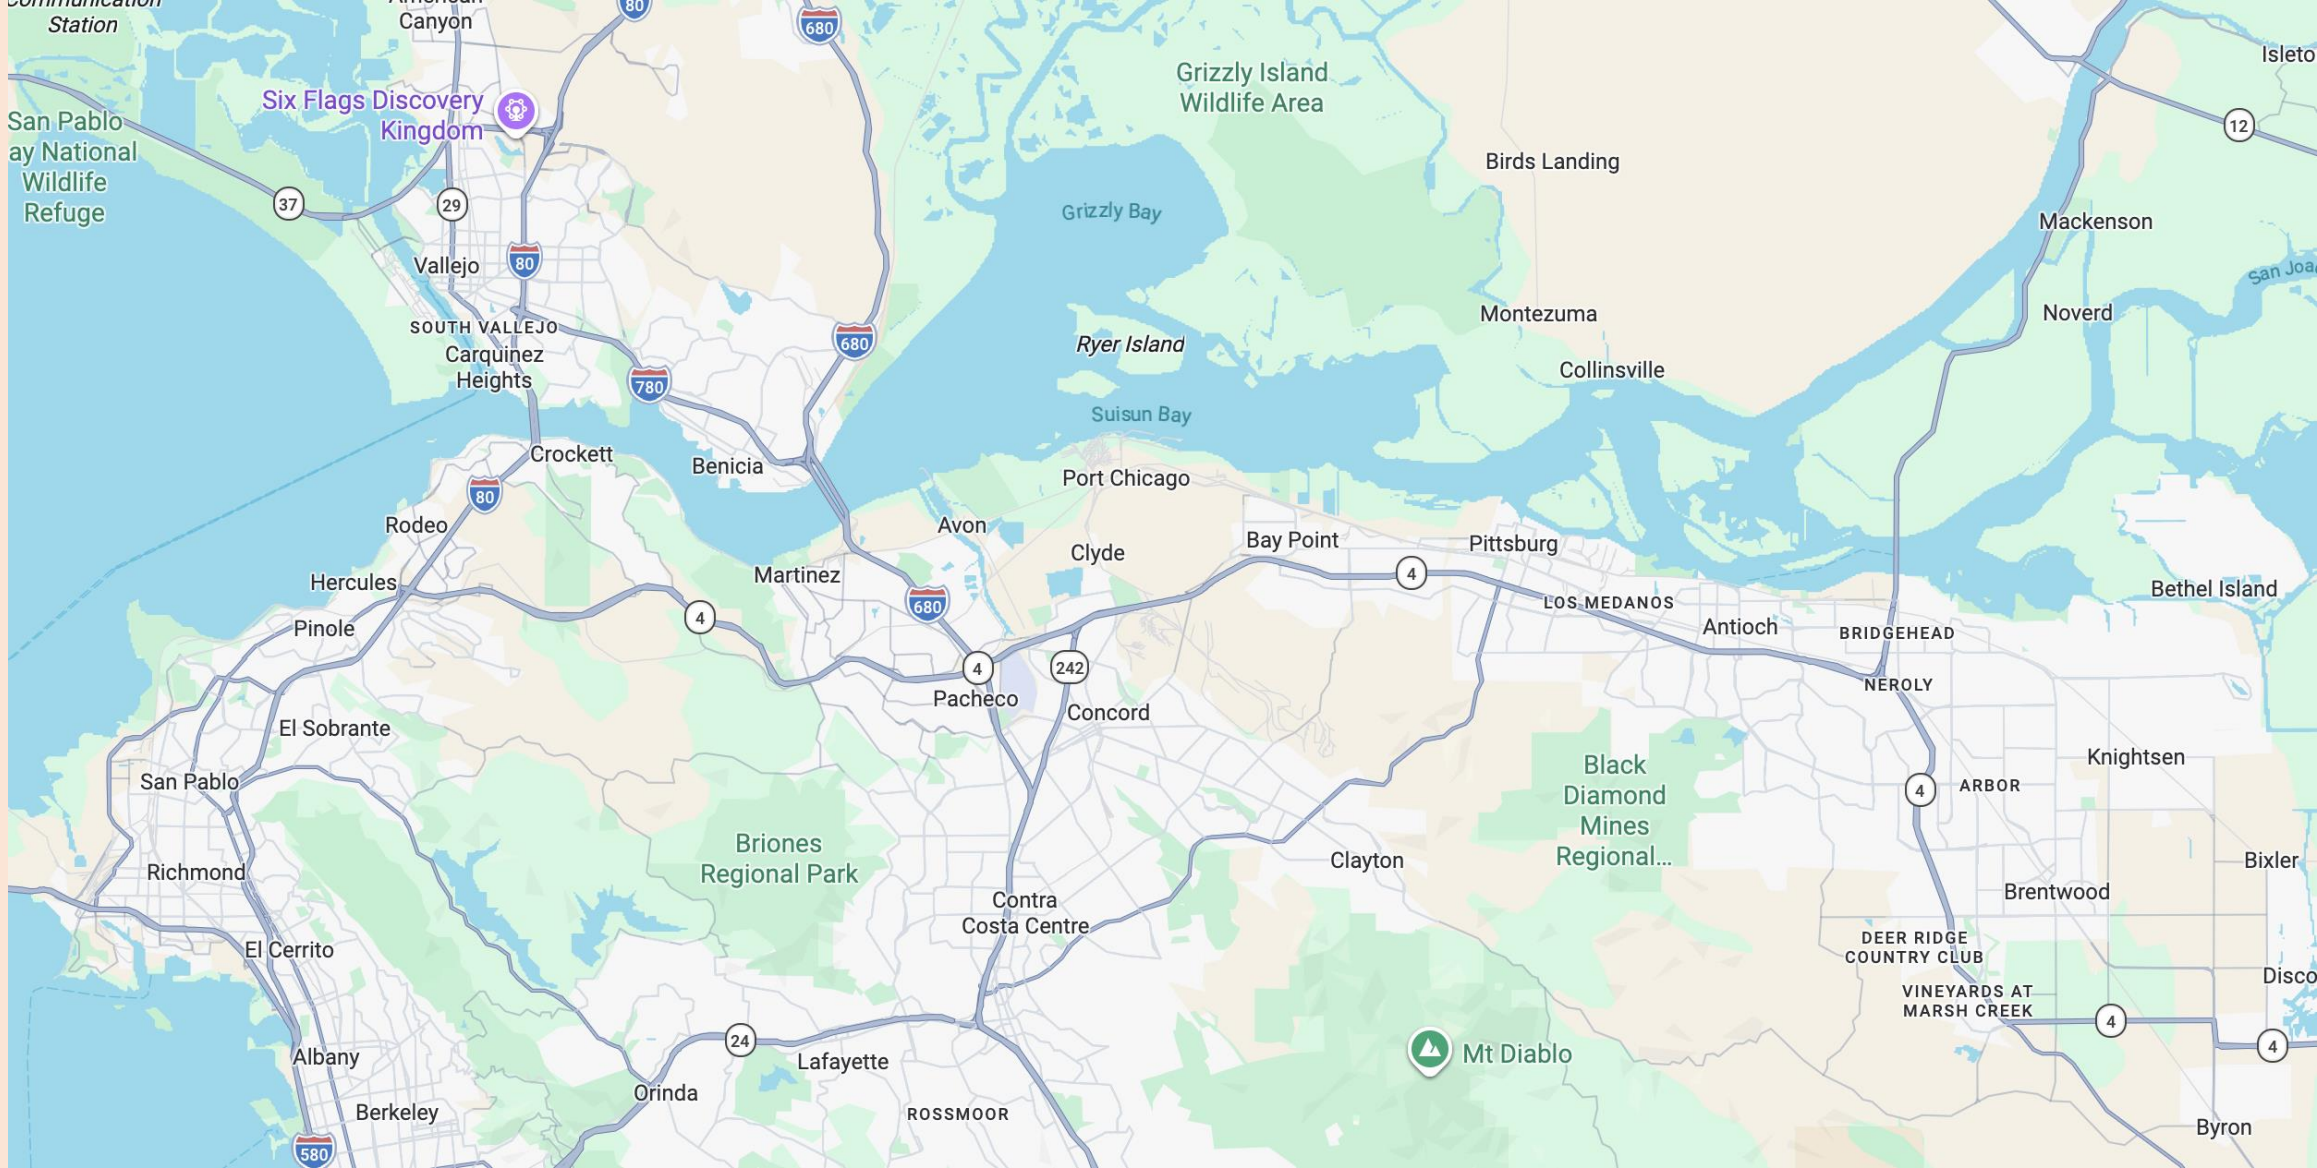

Mokelumne and Sacramento water
inside pipes that are flooded
outside with Sacramento water.

2004 Flood of Upper Jones Tract

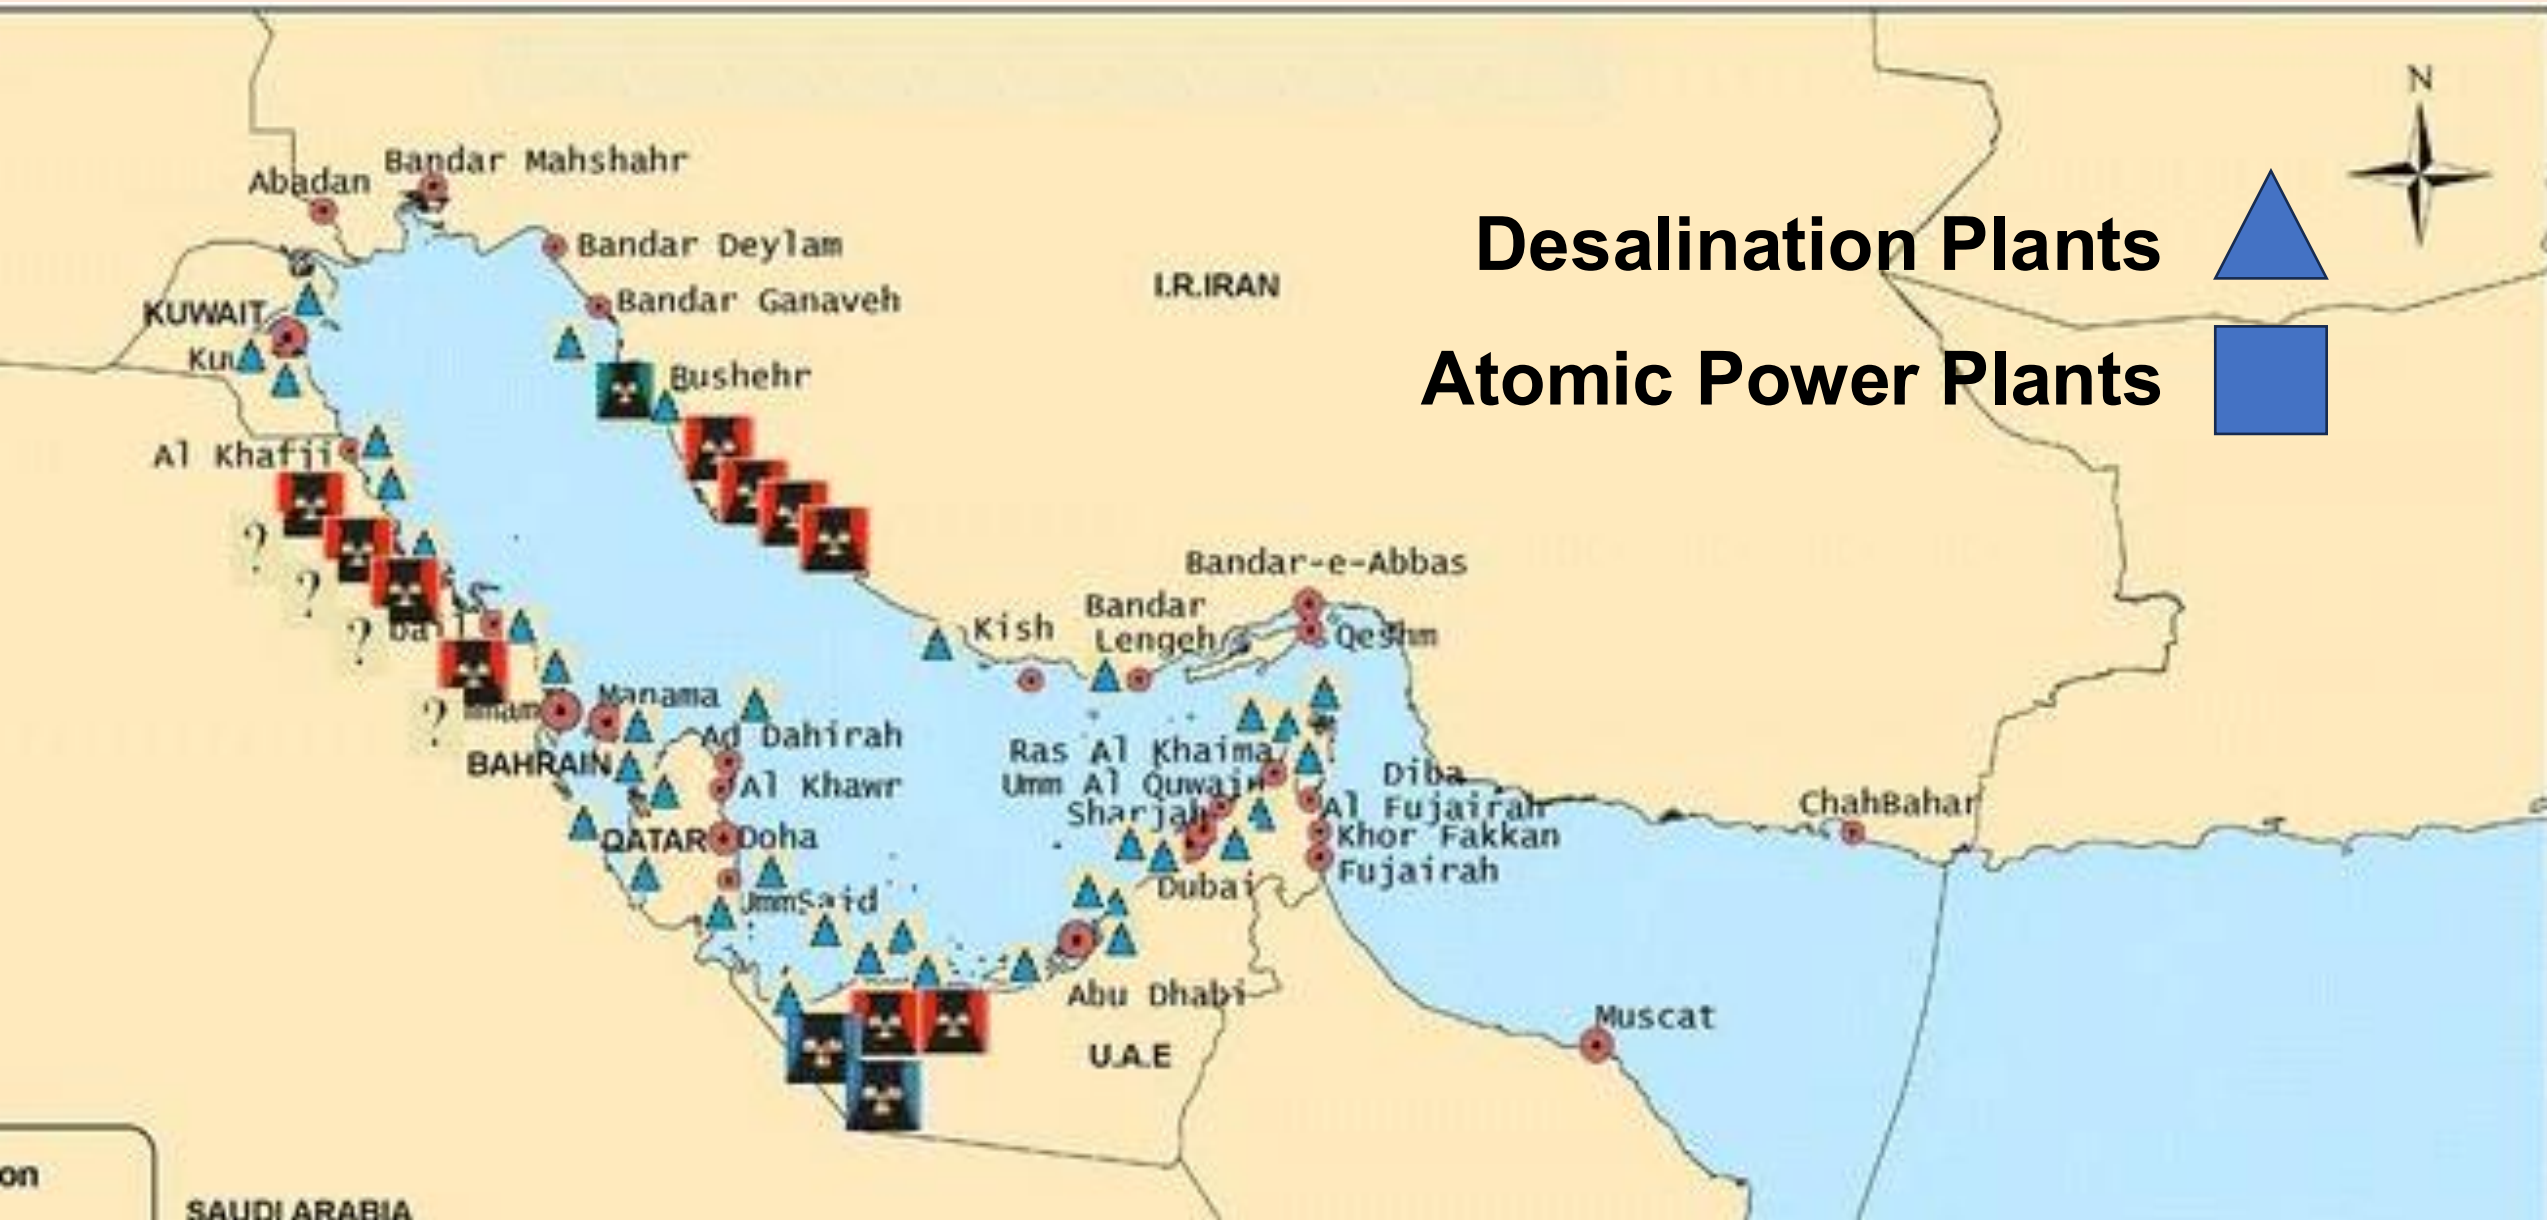

CRAZY EBMUD SOLUTION

If the Sacramento (ship channel) flows past us, then why pipe its water from mountains and across the delta?

THE ONLY REAL SOLUTION

**I HAVE GIVEN YOU
MORE FACTS AND
MORE IDEAS THAN
EBMUD DIRECTORS
HAVE IN A LIFETIME.**

One
more
thing
...

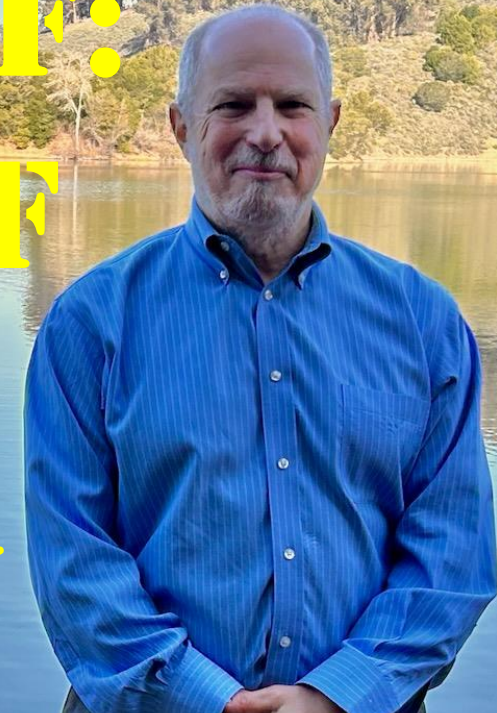

My name is Gary Wolff. I'm a photoshop expert, not a water engineer.

Every elected official in the East Bay endorses Mr. Wolff. He is an ambitious politician trying to unseat the incumbent of his own party. Enjoy the show, and vote for Joseph Grcar instead.

Nonsense from a
devious politician

GARY WOLFF: EXAMPLE OF A DEVIOUS POLITICIAN

picture
of Lake
Chabot.

I pledge that as your Ward 7 Board Member, I will:

Keep Water Affordable

Impossible to keep prices down because we are outgrowing the Mokelumne River.

Protect Water Quality

It is very costly to disinfect water we must now get from the Sacramento ship channel.

Competently and Effectively Help With Water Issues that Affect Your Life
