

Please Elect Joseph Grcar “**Mr. AI**” for Castro Valley School Board this November

Castro Valley now

The value of one, humongous AI DATA CENTER is about \$13 billion (Microsoft Fairwater in Wisconsin). The property tax on the data center is \$159 million, equal to the whole budget of the school district!

Do you know how much land is in the Castro Valley School District? About 68 square miles of mostly empty land that runs from Sunol all the way to Oakland.

Castro Valley with AI DATA CENTER

Build AI Baby, Build

If Castro Valley Schools use their land to build humongous AI DATA CENTERS, we would have enough money to:

- *Rebuild all the schools in the district*
- **PAY STUDENTS TO GO TO SCHOOL**
- *Retire all the school district bonds*
- **DOUBLE TEACHERS' SALARIES**
- *Chauffeur students to school and home*
- **SERVE GOURMET CAFETERIA FOOD**
