## HOW TO PLAY

### 1v1 or Team Play

- Each team or player will be on opposite sides of the table or surface you're playing on and should have 5 cups clipped to their side. We suggest placing the small cup in the middle, but you can customize however you'd like!
- To determine which team or player goes first, you can go with whichever side has the youngest player, or see which player makes a shot first.
- Similar to traditional "pong", each side gets two shots at a time. Whenever you make the ball into your opponent's cup, they must flip the cup upside down like shown below.
- **HOW TO WIN:** Make all of your opponent's cups first!

**NOTE: THE RAMPS ARE NOT DESIGNED TO HOLD CUPS FULL OF LIQUID!**

- Place 5 cups at only one (1) end of the table (with the small cup in the middle)
- Assign a value to each cup! For example, the larger cups are worth 5, but the small cup is worth 10, and you play until 30 points. You can also raise the stakes and assign a dollar value to each cup, OR assign a challenge to each cup! Whatever your heart desires!
- Everyone takes turns rolling two balls at a time. Keeping playing until you are satisfied with the beating you've given your friends and loved ones.
