ART STUDIOS

ABOUT US

Inner Spark Experiences is a space created from something I've always known:
Art is a way to name what we feel, let go of what weighs us down, and remember what makes us feel alive.

Through workshops and classes that blend creativity, storytelling, and embodied practices, I invite people to **explore expression** as something personal, and deeply human.

Every time you participate, 35% of what you give supports another woman's path through Ollin Ameyalli,
An organization that supports minority women in continuing their education, growing their small businesses and strengthening the community.
