

✦ Introduction: Learning to Answer with Yes or No

In English, we often answer questions using "Yes" or "No", especially when the questions are negative (e.g., "Don't you like apples?"). These types of questions can be tricky, so practicing them helps students:

- Understand the correct use of "Yes" and "No" in daily conversations.
- Improve their listening and speaking skills in English.
- Build confidence while answering questions quickly and correctly.

This worksheet set will help students practice and master the correct responses with translations in Hindi for better understanding.
