CLASS - 4

(With Hindi Explanation for Better Understanding)

Learning English becomes easier when we understand the correct usage of small but important words like "not" and "no". These words help us make negative sentences—that means sentences which show something is not true, does not happen, or does not exist.

"Not" is used to make verbs negative. It shows that an action is not happening or a statement is not true.

Examples:

- I am not hungry.
 (में भूखा नहीं हूँ।)
- She does not like milk.
 (उसे दृध पसंद नहीं है।)
- We did **not** go to school. A SCHOOL (हम स्कूल नहीं गए।)
- Q Use "not" with helping verbs like:
 - is / am / are
 - do / does / did
 - have / has
 - will / can / may etc.

"No" is used to show the absence of something. It means nothing is there or something does not exist.

- There is **no** water in the bottle. (बॉटल में पानी नहीं हैं।)
- He has no friends.
 (उसके कोई दोस्त नहीं हैं।)
- No one was in the room. (कमरे में कोई नहीं था।)
- **Q** Use "no" before a noun:
 - no milk, no pencil, no teacher, no reason etc.
