- **Make a drawing in inches of the shape of the room. Show each wall, door and window.**
- **Measure from the floor to the ceiling. (Measure to the bottom of the soffit if one is present.)**
- **Measure each wall section and write it on the drawing. (A wall section is from one corner to a doorway or window.)**
- **Measure each door and window. (Measure doors and windows from the outside edge to outside edge of casing or trim.)**
- **Add up the dimensions on each wall and verify that it matches the total length of that wall.**
- **Mark the locations of where appliances will go (not where they are now). List the dimensions of each appliance. Measure the width, height and depth.**
- **Mark on the drawing the exact locations of sink, water and gas lines.**
- **Scan the drawing and email it to [pc@kcwny.com](mailto:pc@kcwny.com) or fax it to (716) 649-8802.**

Ceiling height: 96"      Want: Base Trash Cabinet

Color: White Shaker      Apron Sink

- Ceiling Height
- Sink
- Stove
- Refrigerator
- Dishwasher
- Window
- Soffit
