

## DARK LIPS

### Introduction

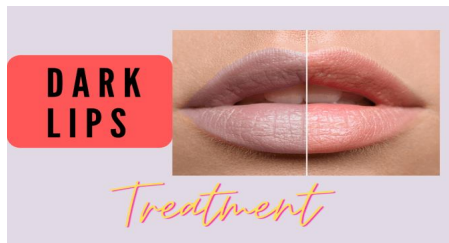

- For the photogenic face no one wants Dark Lips not even one lip Dark one lip light.
- Wearing lipstick is not a solution but treatment is the right choice for the Lips Pout.
- Dark Lips reveal the unhealthy condition, underlying disease, and most important habitual habits.

Lip color vary from person to person. The color of your skin help to decide the color of your lips. Lighter your skin color, the lighter lips, more prominent the blood vessels.

### What Are The Common Causes of Dark Lips ?

- Sun Exposure can damage lips
- Tobacco consumption/ smoking
- Vitamin B12 deficiency
- Usage of low grade lip balm
- Lip licking and lip biting create injury to lips
- Hormonal changes – thyroid, pregnancy
- Low quality cosmetics- high in metallic content
- Allergies to toothpaste and synthetic fragrances and colors in lip products
- Drug (medical) allergies
- Medical conditions like lichen planus.

### Lip Facial/ Lip Hydration

Due to hydration boost lips cells rejuvenate and gives plumpy and hydrated and after few session of treatment decreases the discoloration.

Advantages of this method is hydration collagen boost Plumping and Lightening of Lips

### **Q Switch Laser for Dark Lips**

painless, non-invasive, improve an uneven texture and lighten dark lips

lasers decrease pigmentation. It uses light that goes deep into the skin surface, exfoliates the pigment and allows the dark pigment to get lighten.

After 2-3 sessions darkness of lips started to reduce.

### **Lip Micropigmentation/ Lip Tattoo**

Micropigmentation is the manual, permanent and customized process of inserting natural, organic pigments FDA Approved using permanent 6D microblading micropigmentation technology. Lip micropigmentation improves removes the dark shade **and brightens** shade of lips through the application of pigments.

Usually, it is painless require 2-3 session

Most important it can hide birth mark, vitiligo lips even out the irregular shade of lips.i

Microneedles create microchannels through which lip lightening agent easily enter and decreases the darkness
