

It's always the right
time to purchase
your *dream* home.

Purchasing a new home, but haven't sold your current home quite yet? A **Bridge Loan** from Premier Bank can ensure a smooth transition in the short-term gap of buying and selling!

- Use the equity in your current home for the down payment and closing costs on your new home; whether you are purchasing an existing home or building a new one.
- Low, interest only payments until your current home sells.
- Can include your existing mortgage to reduce your overall payments.

Let's talk today!
