Where any reports of disrespectful conduct are judged to be well founded the Series Organisers may issue warnings or require remedial actions and/or report the matter to the Stewards who may impose appropriate penalties which can include loss of Series points and/or race bans through to Series Expulsion and referral to the Motorsport UK.

It is imperative that we promote the safety and wellbeing of young people and adults at risk. B. SERIES RACE MEETINGS AND PROCEDURS:

ENTRIES:

- a. Competitors are responsible for sending in correct and complete entries, with the correct Entry Fee, to the Series Coordinator at the Track Action prior to the closing of entry dates as per the entry forms. The Entry forms are available on the website [Documents | Track Action](#)
- b. The Race Entry fee is **£450:00**
- c. Incorrect or incomplete entries (including driver to be nominated entries or those without a payment) shall be held in abeyance until they are complete and correct and the date of receipt for acceptance of entry purposes shall be the date on which the Series Coordinator receives the missing or corrected information. No entry will be capable of acceptance until the Series Registration Fees together with the Series Entry Fee
- d. Pursuant to NCR Chap 3 App 5, Any withdrawal of entry or driver/car changes made after acceptance of any entry must be notified to all of the Track Action Coordinator in writing. If driver/vehicle changes are made after the publication of Entry Lists with Final Instructions, the Competitor concerned will be accepted and bulletined at the event.
- e. Where applicable Reserves are to be nominated on the Final List of Entries published with the Final Instructions or Amendment Sheet Bulletins. Reserves will practice and replace non-qualified (including drivers practising out-of-session or qualifying by virtue of having raced at the circuit within the previous 12 months), withdrawn or retired entries in Reserve Number order irrespective of class. If reserves are given Grid Places prior to issue of the first Grid Sheets for any round, the times set in practice shall determine their grid positions. If Reserves are given places after publication of the grid sheet and prior to cars being collected in the Official "Assembly Area" they will be placed at the rear of the grid and be started without any time delay. Otherwise, they will be held in the pit lane and be released to start the race after the last car to start the Green Flag Lap or last car to take the start has passed the start-line or pit lane exit whichever is the later. Such approval to start must be obtained from the Clerk of Course.
- f. Acceptance of Entries: Up to Closing Day, The Organisers may accept up to the maximum number of starters permitted on the Track Licence for the circuit ("the maximum"). If entries received by the Closing Day exceed the maximum, selection will be made in order of receipt. Those in excess of the maximum and up to 20% more will be treated as 'reserves. If the maximum has not been reached by the Closing Day, entries received after that date will be accepted strictly in order of receipt until the maximum is reached.

BRIEFINGS:

Organisers shall notify competitors of the times and locations for all briefings in the Final Instructions or Official Race Day Bulletins for the meetings. Competitors must attend all briefings. Non-attendance will result in a fine of up to £180. For the avoidance of doubt such fines are passed to Motorsport UK.

PRACTICE / QUALIFICATION:

Practice sessions will be as per NCR [Ch.12 App.6 Art.3 \(12.6.3\)](#) . Should any practice or qualifying session be disrupted the Clerk of the Course shall not be obliged to resume the session or re-run sessions to achieve the Series criteria and the decision of the Clerk of the Course shall be final.

The order in which cars line up within the assembly area prior to Qualification will be determined by the Organisers. This will be notified during the Briefing. This may be a random selection or on a rotation basis as determined at the sole discretion of the Organisers. Should a competitor wish to start the session after all other cars they can make this request.

QUALIFICATION CRITERIA:

Each driver should complete a minimum of 3 laps practice in the car to be raced and in the correct session in order to qualify for selection and order of precedence as set out in NCR [Ch.12 App.6 Art.3 \(12.6.3\)](#) Drivers practising out-of-session or qualifying by virtue of having raced at the circuit within the previous 12 months will be placed at the back of the grid. The Clerk of the Course and/or Stewards of the Meeting shall have the right to disqualify any driver whose practice times or driving are considered to be unsatisfactory as per Motorsport UK Regulation Q.12.4.

Starting Grids:

The grid for each meeting will be set as detailed below:

Race 1: Fastest lap set in the qualifying session.

Race 2: Second fastest lap set in the qualifying session.

RACES:

The standard minimum scheduled race distance shall be 15 minutes, but should any race distance be reduced at the discretion of the Clerk of the Course or Stewards of the Meeting or by inadvertent display of the race finishing flag signals it shall still count as a full points-scoring round.

STARTS:

Unless modified by any published BARC Supplementary Regulations, the following regulations shall apply:

- a. There will be a minimum elapsed period of 3 minutes from cars being released from the Assembly Area to the start of the race or, if applicable, the green flag lap.
- b. Start Procedure: In normal circumstances there will be a green flag signal lap. A 'two minutes' board will be shown on the start line; engines should be started at this stage and the grid cleared of any pit crew. A 'one minute' board will be shown, followed by a '30 second' board; a '5 second' board will be displayed; approximately 5 seconds after this board is withdrawn the red lights will be switched on; after between 2 seconds and 7 seconds they will be switched off to start the race. In the event of the failure of these lights a National Flag will be used to start the race.

In circumstances where a green flag signal is used, it will be waved from the start line to commence the green flag signal lap. The pole position driver should set a reasonable pace during this lap and slow down on approaching the start line to allow the grid to close up. Drivers should resume their correct grid positions with the minimum of delay. Any drivers unable to start the green flag signal lap or start the race are required to indicate their situation as per NCR Ch.12 App.6 Art.6 (12.6.6) Drivers may make up any lost grid position during this green flag signal lap, BUT any drivers unable to maintain grid position to the extent that ALL other cars are ahead of them, may complete the green flag signal lap but MUST remain at the rear of the last row of the grid but ahead of any cars to be started with a time delay

A '5 second' board will be displayed when the grid is stationary. Approximately 5 seconds after this board is withdrawn the red lights will be switched on; after between 2 seconds and 7 seconds they will be switched off to start the race. In the event of the failure of these lights a National Flag will be used to start the race.

- a. Any car removed from the grid or driven into the pits after leaving the Assembly Area shall be held in the pit lane and may start the race after the last car to take the start from the grid has passed the start line or pit exit lane whichever is the later.
- b. Excessive weaving to warm-up tyres - using more than 50% of the track width - and falling back in order to accelerate and practice starts, is prohibited.

SESSION RED FLAG SIGNAL:

- a. Should the need arise to stop any race or practice, red lights will be switched on at the Start line and red flags signal will be displayed at the Start line and at all Marshals Signalling Points around the Circuit. This may be supplemented by the showing of red lights signal around the circuit.
- b. This is the signal for all drivers to cease circulating at racing speeds, to slow to a safe and reasonable pace and to return to the pit lane, during practice, and to the starting grid area, during a race, unless otherwise directed by officials.
- c. Cars may not enter the Pits unless directed to do so or repairs are necessary. Work on cars already in the Pits must cease when a race is stopped and may only continue under the control of a Scrutineer. Cars which are in the pit-lane or who enter the pit-lane may only re-start from the pit-lane (not the grid) after all other cars have re-started. Non-runners at the time of the stoppage (which have been recovered) can re-start from the pit-lane behind those referred to above.

Case A: Less than two laps completed by Race leader.

The Race will be null and void. The race will restart from the original grid positions. Competitors unable to take the restart may be replaced by reserves who will start from the back of the grid in reserve order. Gaps on the grid should not be closed up. The length of the restarted race will be determined by the Clerk of the Course.

Case B: More than 2 laps completed by Race leader but less than 75%.

The race will restart from a grid set out by the finishing order of part one [NCR Ch.12 App.6 Art.9 \(12.6.9\)](#). The result of the race will be the finishing order at the end of part two. The length of the restarted race will be determined by the Clerk of the Course.

If the leader has completed more than 75% of the race distance or duration, it shall not be restarted and the results will be declared in accordance with [NCR Ch.12 App.6 Art.9 \(12.6.9\)](#), unless the Clerk of the Course in consultation with the Stewards deem it appropriate to restart the race.

RE-SCRUINITY:

All vehicles reported involved in contact incidents during races or practice must be re-presented to the Scrutineers before continuing in the races or practice.

PITS, PADDOCK & PITLANE SAFETY:

Pits & Paddock: Competitors must ensure that the Motorsport UK, Circuit Management and Organising Club Safety Regulations are complied with at all times. In addition, any paddock plan issued by the Organisers must be complied with and the minimum amount of space should be used when setting up.

No-one under the age of 16 is permitted access to the pit lane unless they are the holder of a Motorsport UK Junior Race licence

It is the Competitors responsibility to ensure that a working transponder is fitted to the vehicle in accordance with **NCR Ch.12 App.6 Art.2 (12.6.2)** No electronic equipment may be placed within five metres of any official timing line and any breach of this may result in the confiscation of the equipment concerned.

QUALIFICATION RACES:

There is no provision for qualification races within this Series except where the grid is oversubscribed at the date for the closing of entries.

There may be occasions when, due to circumstances on the day, a scheduled race is not run, a race meeting is abandoned, or the circuit curfew is reached. The BARC will use its best endeavours to find space in another race meeting in the same season in order to run a replacement Series round; preference will be given to a race meeting where the affected formula is already scheduled to race. No change of vehicle will be permitted.

If a race is 'red flagged' twice the Clerk of Course may decide to rerun the race on the same day subject to circuit curfew but is not obliged to do so. If the decision is taken that it should not be rerun on the day or it cannot because of circuit curfew, it will be considered an abandoned race and the number of Series scoring rounds will be adjusted accordingly.

The cancellation abandonment re-scheduling or curtailment due to curfew of any scheduled Series race(s) shall not howsoever entitle any competitor to any refund of either Series or race entry fee(s).

ADDITIONAL SPORTING REGULATIONS ISSUED FOR THE SERIES:

All competitors (for this clause meaning Entrants, Parents and Drivers) undertake with the Organisers to respect and uphold at all times the Regulations of the Series including the Series Commercial Undertakings which are a material term of the Series. Any driver competing in the Series may be called before a meeting of the Series Stewards who, at their discretion, may take further action that could include disqualification from part or all of the Series.

The Organisers may use any evidence available to them to request that the Series Stewards investigate any drivers who are deemed to show poor driving standards or bring the Series into disrepute in any such manner through on and / or off-track incidents. This may include but is not limited to any complaints made officially by registered competitors.

Series Stewards are also empowered to consider any request from a Series co-ordinator to penalise any Competitor for any breach of Series regulations and, after holding a formal hearing if they deem it necessary, to impose a penalty (subject to the rights of appeal).

The Organisers acting through any Official of the Meeting are empowered to demand from any competitor (Entrant and/or Driver) the surrender and delivery up to the Organisers of any moving image evidence and its related recording device for the purposes of establishing conformity with driving standards. Failure to so deliver up and/or surrender the said moving image evidence and/or device(s) shall entitle the Organisers acting through the Judicial officials of the event and/or Series to disqualify the relevant competitor from the relevant event and/or Series results. For the avoidance of doubt all cameras and recording equipment fitted to cars are deemed to be under the control of the Organisers with effect from signing on at each Series race event.

For the avoidance of doubt the meeting will be deemed to start when the competitor signs on and finishes after the conclusion of judicial action after the final race of the weekend.

Competitors must at all times respect the property belonging to the Organisers and Commercial rights holders. Failure to do so may incur fines and/or further penalties.

Teams running and preparing cars for competitors must provide proof of public liability insurance in to The Track Action Racing Club

The Respect Code means that certain standards of behaviour are expected from everyone involved, for example:

- b) Everyone should create a welcoming, friendly, and safe environment and at all times be treated politely, fairly and with respect.

- d) Respect should be shown to all competitors and their families, applauding their success, and respecting the decisions made by officials.
- e) Drivers will race for enjoyment, trying their best at all times while racing fairly, being polite and treating everyone with respect, not showing off when they win and not getting upset if they don't win.
- f) Teams accept that racing is primarily about enjoyment not putting pressure on young racers and encouraging them all to respect the rules and the authority of officials.
- g) No-one will encourage a racer to break or bend the rules or drive in a manner that could cause injury to themselves or others.
- h) Everyone must avoid public criticism of an event, organiser, officials, or their decisions, including through social media, as this could be seen as detrimental to those involved at all levels and to the sport as a whole.
