STANDARDS TECHNOLOGY FORUM™

Collaborate and Innovate

2022 Standards Technology Forum November 14-15, 2022 7:30AM – 12:00PM EST 1:30PM – 6:00PM CET		
Day 2	**Topic**	**Speakers/Organizers**
7:30	**Welcome & Recap**	Lakshmy Mahon, GDV
7:40	**Postcards from Abroad** This session will discuss various technology advancements and initiatives from guest NSBs. Organizations focus on new and emerging technology initiatives currently underway in their respective countries.	Moderator: Guilaine Fournet, IEC Participants: • Associação Brasileira de Normas Técnicas (ABNT) • Standards Australia • South African Bureau of Standards (SABS)
9:00	BREAK	
9:15	**Standards Development Advancements & Change Management** Build it and they will come? Not always. Many of us have experienced the challenges associated with change management: limited understanding of the changes and the corresponding impacts, resistance to organization culture shifts, resources limitations, limited employee involvement, etc. Join us as we walk through new products that may allow a more streamlined standards development process, and the challenges with overall change management in these areas.	Moderator: Lakshmy Mahon, GDV Participants: Kristyn Gutierrez, ASME Sebastian Kriegsmann, DIN Peter Maidens, BSI
10:00	BREAK	
10:15	**ISO & IEC SMART** In partnership with IEC, ISO has been working to revolutionize digital standards development, support the standards community, and deliver connected experiences and insights to customers. In this session,	Moderator: Sebastian Kriegsmann, DIN Participants: Ralph Sporer, IEC Yulia Gerasymchuk, ISO Sven Bergander, Beuth George Gulla, ANSI

	IEC and ISO will give our participants an update on SMART – where is the project now, what is the approach & vision, what are some use cases, what is the business model, and where are we headed? We hear from IEC & ISO on the various milestones achieved, we hear from Beuth as they provide an update on how they are managing SMART within their organization initiatives, and we hear from ANSI who will provide a North American perspective on this project.	
11:45	BREAK	
12:00	**Adding Standards Value through Content Enhancement** Learn how taxonomies and ontologies transform the standards market approach to customer problems.	Moderator: Mike Arnold, UL Solutions Participants: Robert Wheeler, ASME Mike Arnold, UL Solutions
12:30	**NISO STS & SSOS Standards Initiatives** Updates on NISO STS (Standards Tag Suite) and NISO SSOS (Standards-Specific Ontology Standard) will be provided.	Moderator: Robert Wheeler, ASME Participants: Tommie Usdin, Mulberry Technologies, Inc. Robert Wheeler, ASME
1:00	**Closing Remarks & ADJOURN**	Lakshmy Mahon, GDV

Forum Organizers:

Pablo Corrons, AENOR	*Andy Buckmaster, ASTM*	*Mike Arnold, UL Solutions*
Raul Rivas, AFNOR	*Nicolas Fleury, Stractic Advisors*	*Guilaine Fournet, IEC*
Robert Wheeler, ASME	*Marion Winkenbach, Beuth Verlag*	*Silvio Dulinsky, ISO*
Ahing Huang, ASTM	*Simon Powell, BSI*	*Tharun Thomas, ISO*
Lakshmy Mahon, Global Data Vision	*Sebastian Kriegsmann, DIN*	*Jo Collins, on behalf of NEN*
