International List of Doctors (Updated Oct 2026)

To the best of our knowledge, these doctors have treated patients affected by fluoroquinolones and acknowledge the condition. Please call ahead to confirm before scheduling an appointment. This list is continually updated.

Disclaimer: *For multiple reasons, supplements, treatments, and pharmaceutical effects and outcomes can possibly vary significantly among those affected by fluoroquinolone drugs. Since we are a non-profit research entity, our Foundation does not endorse any specific recommendations or treatment protocols and does not receive compensation from any medical doctor.*
