MARCH 23, 2020

Valued Clients of Braden Technologies,

Earlier today, the Governor of Michigan signed a "Stay Home, Stay Safe" Executive Order and urged non-essential businesses to shut down. Due to this order, we will not be accepting new clients to Braden Technologies, until further notice.

If you are a current/existing client of Braden Technologies, I will continue to take care of you and your needs from *my home office*. My Production and Graphic Design editors will continue to serve you from their homes as well.

During this time of uncertainty, I urge everyone to please stay home so that we can get back to conducting business as usual, as soon as possible.

Earlier this week, I put out a statement moving all in-person meetings to video conference calls. I will continue as planned with our scheduled time for our existing clients, *only*.

During this shutdown, the best way to reach any of us will be via email. A list of important emails, along with other helpful resources, are provided at BradenTechnologies.com/coronavirus

On behalf of the team at Braden Technologies, I apologize for any inconvenience that may arise from this. Please know that we are following the Governor's orders and taking measures to all stay healthy and safe as a company, and I encourage everyone else to do the same. If you have any questions or concerns, please do not hesitate to reach out to us.

We look forward to working with you again soon.

Sincerely,

Braden Diehl

Owner; Braden Technologies
