**SAFE SET.**

DESIGNED FOR
THESE TIMES AND
THIS INDUSTRY.

WHAT DOES SAFESET DO?

SafeSet is an easy-to-use solution to ensure TV & film production crews meet COVID-19 testing and screening guidelines. Developed in line with The Safe Way Forward, the joint COVID-19 Safety Guidelines by SAG/AFTRA, DGA, IATSE and The Teamsters, SafeSet helps cast & crew go back to work in a safer environment by ensuring testing, access control and data recording are done in an easy yet secure manner.

FEATURES + BENEFITS

- Simple, easy to use web/mobile app.
- Privacy is the foundation of SafeSet. SafeSet never stores member personal data.
- Easy-to-access cloud-based control panel gives Covid Compliance Officers control without the need for complicated and finicky spreadsheets.
- Tracks different testing requirements and protocols on a production to ensure everyone is compliant.

- Tracks access to designated areas of a production to ensure talent and crew remain in their assigned zones.
- Flexible and secure testing lab integration.
- Customizable questionnaires to ensure everyone on the set plays their part in keeping your production safe.

APPLICATIONS

SafeSet is designed for film & TV production, but can be used anywhere COVID-19 test tracking and access control is required to return to work, safely and securely. Whether its a studio, soundstage, indoor or outdoor location, SafeSet has you covered.
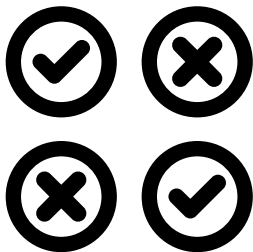

HOW SAFESET WORKS:

1 | Members register on their mobile device

2 | Members are issued custom RFID credentials

**3** | Testing protocol compliance is input into SafeSet

4 | Member answers daily Health Check Questionnaire

5 | Members check in with unique daily QR code*

*Access to set is granted if member has answered the questionnaires and testing is up-to-date.

6 | RFID credentials are tracked by RFID portals**

**To enable contact tracing in the case of a positive test.

ABOUT US

SafeSet's team has been working on public safety technology in the entertainment industry for over 30 years. With experience in film, TV, music festivals, sports, corporate events and more, SafeSet has the knowledge and experience to tailor a solution that's right for any production.
