

HOOK'D UP SERVICES, LLC
JOB DESCRIPTION

POSITION/TITLE: Level 1 Field Technician

POSITION LOCATION: Schulenburg, Texas Base / Nationwide

POSITION TYPE / Expected Hours of Work: Full Time / Hourly

DATE: August 2025

POSITION SUMMARY:

The Level 1 Field Technician is an entry-level field position designed for individuals new to pipeline integrity work. Under the guidance of experienced team members, this role supports hydro testing, pigging, rig up/down, surveying, tracking, and equipment preparation. It is designed as a training pathway toward Level 2 Technician certification.

RESPONSIBILITIES/DUTIES:

- Assist with rig up and rig down of equipment including hoses, flanges, and temporary piping at job sites
 - Help load/unload tools and equipment
 - Observe and learn all aspects of HUS services including but not limited to surveying, tracking, pigging, hydro testing, separation, and flaring tasks
 - Perform basic tracking using geophones and receivers with supervision
 - Support field crew by preparing and organizing tools
 - Participate in safety meetings and follow all job site protocols
 - Complete basic paperwork and logs for job documentation
 - Travel by driving or flying with field crews to projects throughout the U.S.
 - Maintain a clean, professional appearance and always represent HUS in a professional manner
 - Follow all job site safety protocols and exercise stop-work authority if needed
 - Perform other reasonable job duties as assigned
 - Safely drive a company truck while traveling nationwide
-

EDUCATION/EXPERIENCE DESIRED:

- High school diploma or equivalent preferred
- No pipeline experience required but a plus
- Valid Class C driver's license
- Must be willing to obtain TWIC card
- Complete company-provided safety training

- Ability to take test for job required operator qualifications
-

SPECIFIC KNOWLEDGE, SKILLS, LICENSES, CERTIFICATIONS, ETC.:

- Willingness to learn field equipment and procedures
 - Basic computer literacy and basic function of: Excel, Google Sheets, Email and Delorme
 - Strong work ethic, adaptability, and attention to detail
 - Must pass DOT pre-employment drug test, and background screening
 - Able to navigate safely and efficiently while driving to various locations on a map
 - Able to safely operate a ¾ ton pickup and willing to learn how to pull an equipment trailer
-

PHYSICAL DEMANDS/REQUIREMENTS:

- Ability to lift heavy loads, stand or sit for long periods, and work in various weather conditions
 - Willingness to travel for extended periods and work varied shift schedules
 - Must pass DOT drug test and background check
 - Must be able to obtain DOT Medical Card
-

EQUIPMENT USED:

- Hand tools
 - Trucks and Trailers
 - Laptop, Phone, & Tablet
 - Air Compressor
 - Hydraulic Torque Wrench
 - Geophones & Receivers
 - Forklifts
 - Pressure Washing Equipment
 - Any other tools related to pipeline integrity work
-

ADDITIONAL COMMENTS:

Must be a team player with a strong willingness to learn. This role is intended as the first step toward a long-term career in pipeline services. Opportunity for advancement to Level 2 Technician based on performance and skills development. Nothing in this job description restricts management's right to assign or reassign duties and responsibilities to this job at any time.
