

**HOOK'D UP SERVICES, LLC**  
**JOB DESCRIPTION**

**POSITION/TITLE:** Level 2 Field Technician

**POSITION LOCATION:** Schulenburg, Texas Base / Nationwide

**POSITION TYPE / Expected Hours of Work:** Full Time / Hourly

**DATE:** August 2025

---

**POSITION SUMMARY:**

The Level 2 Field Technician is an experienced field role responsible for performing core pipeline integrity services such as pigging, tracking, surveying, hydro testing, and rig up/down. This position builds upon Level 1 duties and expects independent task execution, equipment proficiency, and mentoring of junior technicians.

---

**RESPONSIBILITIES/DUTIES:**

- Independently rig up/down field equipment including hoses, flanges, and temporary piping
  - Track pipeline pigs/tools using geophones and receivers
  - Perform DGPS survey field work using GPS equipment
  - Perform pigging and hydro testing procedures with minimal supervision
  - Load/unload pigs, and operate lifting equipment
  - Assist Operators with separator jobs and flare operations
  - Maintain field equipment and ensure operational readiness
  - Help train and mentor Level 1 Pipeline Technicians
  - Operate forklifts or other lift equipment to load and unload equipment and assist in job rig up/down
  - Accurately complete field paperwork and job documentation
  - Communicate progress and safety concerns to management or project Operator
  - Travel by driving or flying with field crews to projects throughout the U.S.
  - Follow all job site safety protocols and exercise stop-work authority if needed
  - Perform other reasonable job duties as assigned
  - Safely drive a company truck, pull trailers, and fill out DOT paperwork while traveling nationwide
- 

**EDUCATION/EXPERIENCE DESIRED:**

- High school diploma or equivalent preferred
- At least 1 year of pipeline integrity field experience

- Valid Class C driver's license
  - Must be willing to obtain TWIC card
  - Complete company-provided safety training
  - Ability to take test for job required operator qualifications
- 

## **SPECIFIC KNOWLEDGE, SKILLS, LICENSES, CERTIFICATIONS, ETC.:**

- Proficient in pigging, tracking, surveying, hydro testing, and understanding of separation & flaring techniques
  - Proficient with geophones, receivers, and other tracking equipment
  - Working knowledge of pipeline safety standards and field procedures
  - Comfortably use GPS tools, spreadsheets, and digital logs
  - Capable of mentoring junior crew members
  - Able to navigate safely and efficiently while driving to various locations on a map
  - Able to safely operate a  $\frac{3}{4}$  ton pickup and pull an equipment trailer
  - Able to operate basic forklifts, overhead cranes, and willing to learn operation of other heavy equipment.
- 

## **PHYSICAL DEMANDS/REQUIREMENTS:**

- Ability to lift heavy loads, stand or sit for long periods, and work in various weather conditions
  - Willingness to travel for extended periods and work varied shift schedules
  - Must pass DOT drug test and background check
  - Must be able to obtain DOT Medical Card
- 

## **EQUIPMENT USED:**

- Geophones & Receivers
- Hand tools
- Trucks and Trailers
- Laptop, Phone, & Tablet
- Air Compressor / Dryers
- Hydraulic Torque Wrench
- Trimble
- Line Finder
- Forklifts & Overhead Cranes
- Pressure Washing Equipment
- Dew point meters
- Any other tools related to pipeline integrity work

---

**ADDITIONAL COMMENTS:**

Level 2 Technicians are expected to perform reliably with minimal supervision and contribute to crew safety and efficiency. This role is the gateway to Operator-level responsibility. Nothing in this job description restricts management's right to assign or reassign duties and responsibilities to this job at any time.
