“I noticed results right away. I couldn’t be more pleased.”

—Lillian

JUVÉDERM VOLUMA® XC, JUVÉDERM® XC, and JUVÉDERM® Ultra XC Important Information

APPROVED USES

JUVÉDERM VOLUMA® XC injectable gel is for deep injection in the cheek area to correct age-related volume loss in adults over 21.

JUVÉDERM® XC injectable gel is for injection into the facial tissue for the correction of moderate to severe facial wrinkles and folds, such as nasolabial folds.

JUVÉDERM® Ultra XC is for injection into the lips and perioral area for lip augmentation in adults over 21.

Please see Important Safety Information inside.
IMPORTANT SAFETY INFORMATION

Are there any reasons why I should not receive any JUVÉDERM® injectable gel formulation?
Do not use these products if you have a history of multiple severe allergies or severe allergic reactions (anaphylaxis), or if you are allergic to lidocaine or the gram-positive bacterial proteins used in these products.

What precautions should my doctor advise me about?
• Tell your doctor if you are pregnant or breastfeeding. The safety of these products for use during pregnancy or while breastfeeding has not been studied.
• The safety of JUVÉDERM® XC and JUVÉDERM® Ultra XC injectable gels in patients under 18 years, and the safety of JUVÉDERM VOLUMA® XC in patients under 35 years or over 65 years has not been studied.

Please see Important Safety Information on following pages.
Natural-looking, long-lasting results

IMPORTANT SAFETY INFORMATION (continued)

What precautions should my doctor advise me about? (continued)

• Tell your doctor if you have a history of excessive scarring (e.g., hypertrophic scar formation) or pigmentation disorders, as use of these products may result in additional scars or changes in pigmentation.

• Tell your doctor if you are planning other laser treatments or a chemical peel, as there is a possible risk of inflammation at the treatment site if these procedures are performed after treatment.

• Patients who experience skin injury near the site of injection with these products may be at a higher risk for side effects.

IMPORTANT SAFETY INFORMATION (continued)

What are possible side effects?

The most common side effects include tenderness, swelling, firmness, lumps/bumps, bruising, pain, redness, discoloration, and itching. With JUVÉDERM® XC and JUVÉDERM® Ultra XC injectable gels, most side effects are mild or moderate and last 14 days or less. For JUVÉDERM VOLUMA® XC, side effects are moderate (uncomfortable) and last 2 to 4 weeks.

One of the risks with using this product is unintentional injection into a blood vessel, and while rare, the complications can be serious and may be permanent. These complications, which have been reported for facial injections, can include vision abnormalities, blindness, stroke, temporary or permanent paralysis, and scarring.

Please see Important Safety Information on the back.

VOLUMIZE

for a subtle lift in your cheek area.

OPTIMIZE

your results by adding more volume for correction, as needed.

CUSTOMIZE

with additional treatments to smooth lines or plump lips.

Before

After

Actual patient. Results may vary. Unretouched photo taken before treatment.

1 syringe of JUVÉDERM VOLUMA® XC
