Preparation Before Health Screening

What you need to know before your health screening:

1. FASTING

You are required to fast for a minimum of 8-10 hours prior to your health screening. Only plain water is allowed to be consumed during your fast. Please inform our team if you have any pre-existing conditions or if you are on any long-term medication (e.g. for high blood pressure) so that we can advise you on how best to prepare for your health screening appointment.

2. REGISTRATION

Please bring along your NRIC or passport (for foreigners) and / or company Guarantee Letter (if applicable).

3. APPOINTMENTS

We encourage you to schedule your appointment with us to avoid any potential disappointment as walk-in cases could result in a longer waiting time. If you wish to have any additional screening programmes (elective add-ons) on the same day as your appointment, please try to provide all of your selections in the same appointment request or before the health screening has started.

4. STRESS TEST

Our doctor will assess if you are fit enough to do this test beforehand. You are advised to wear sports / jogging shoes and appropriate sports attire for this as sweating is expected. Please avoid all caffeinated products (including coffee, tea, energy drinks and chocolate) in the morning prior to the appointment. Do make sure you have at least six hours of sleep, have taken the morning dose of your regular medicines and avoid heavy meals.

5. DEAR LADIES

We recommend that you book your appointment with us approximately 10 days before or after your first day of menstruation (period). If you are scheduled for a mammogram or breast ultrasound, do not apply any deodorant, powder or lotion over breasts and armpits on the day of the examination.

For patients who will be doing an X-ray as part of their package, please be sure that you are not pregnant at the time as X-rays can be harmful to the foetus. If you are unsure, please enquire with our team on how to proceed.

Screening & Preventive Health

Thanks to better living conditions, improved hygiene and increased awareness, humans are living longer than before. However, a longer life may not necessarily spell a better life if we do not enjoy good health and vitality.

Ageing is an inevitable part of life, but choosing a healthy lifestyle can make a big difference in the way we look and feel. Health screenings are an important part of preventive health because they lead to early detection and treatment of chronic diseases.

Non-Communicable Diseases (NCDs) such as heart disease, diabetes and hypertension brought about by modern living can be kept at bay with the right treatment, advice on dietary intake and regular exercise. Step into our Screening & Preventive Health to get yourself checked today.

OPERATION HOURS

Monday - Friday:

8:00am to 5:00pm

Saturday:

8:30am to 12:30pm

Sunday and Public Holiday:

SCAN ME

Why Choose Us?

Established in 2008, Thomson Hospital Kota Damansara (THKD) is the flagship hospital of TMC Life Sciences Berhad, one of the fastest growing healthcare groups in Malaysia.

OUR EXPERTISE

Internationally accredited Consultant Specialists with qualifications from institutions across the globe, covering over 53 medical/surgical specialties and sub-specialties as well as highly trained professional allied health staff.

COST-EFFICIENT QUALITY CARE

Our hospital provides high quality and value-based care that yields the greatest medical benefits to our patients at an affordable cost.

PIONEERING TECHNOLOGY AND MODERN INFRASTRUCTURE

We are committed to providing our local, regional and international patients access to state-of-the-art medical technology. We also believe that a suitable environment plays an important part in a patient's journey to recovery. Our peaceful and soothing ambience enhances a patient's recuperation process.

LOCATION

Located in a prime alcove in greater Kuala Lumpur with close proximity to established neighbourhoods such as Mutiara Damansara, Damansara Perdana and Bandar Utama, our hospital is accessible via all modes of transportation, including the Mass Rapid Transit (MRT) train system.

AWARDS & ACCREDITATIONS

THKD successfully garnered multiple accolades at several international award ceremonies. The hospital was also accredited by the Australian Council on Healthcare Standards (ACHS) International for the Evaluation & Quality Improvement Program, as well as the Malaysian Society for Quality Health (MSQH) for the 5th Edition of MSQH Hospital Accreditation Standards, for its excellence in safety, quality and service standards.
