

3 Channel Rack Mounted Communications System

Diver Comms like you've never heard before! Clear, crisp and bright! Even the untuned ear can now understand what is being said. Totally up to date modern electronics have been carefully selected and tested to give the clarity you would expect from modern surface communications equipment - even with standard microphones and earphones found on most dive sites.

- 14 Pin connector for diver's umbilical, external speaker, PTT, record out, etc
- Designed to fit standard 19" rack unit
- Premium PTT headset supplied as standard
- Mains trickle charge to heavy duty battery
- 12v external battery input for back-up
- Recording output
- External speaker output
- Waterproof speakers with high quality sound
- Diver selection/isolation switch
