

## The Hedgehog Half Marathon Sunday October 4th 08:30

This annual event is scheduled to go ahead, working with the Andrews Hedgehog Hospital team (based at Appleby), under new stringent guidelines, and with a raft of measures to make the event safe and enjoyable.

This event is the first fundraiser of the year for our friends at the Hedgehog Hospital, so it's an important one! If you would like to help them out please visit <https://www.andrewshedgehoghospital.org.uk/#/>

### **Covid-19:**

- The event is licensed and designed under the new UK Athletics guidelines.
- The start is staggered with runners set off in small waves, so you will see a steady flow of runners coming through your village. They are also being set off fastest first to help avoid overtaking.
- You can find out more about the event in the athlete information pack and take a look at the athlete and spectator code of conduct (just go to the event website page below)
- The route runs from Normanby to Burton, Thealby, Coleby, West Halton, towards Whitton, Alkborough, then back to Burton and Normanby.

Find more information here: <https://curlysathletes.co.uk/the-hedgehog-half>

- A Covid officer & UKA adjudicator will be present on the day, and please feel free to get in touch with any queries. [Contact@curlysathletes.co.uk](mailto:Contact@curlysathletes.co.uk)

**Traffic:** We have no road closures in place, but instead, some dynamic traffic management, such as stop/go boards to minimise disruption.

### **Mini roundabout in front of Normanby Hall** Traffic

controlled, via traffic team with stop/go signs. En-masse exit from park will stop traffic in all directions from 08:30-09:00 as runners clear. When needed, a 'break' in runners can be applied to allow traffic to clear the mini roundabout

After this time (est around 10:10-12:00) intermittent traffic control as runners approach, and return into the park grounds.
