

## ARDOT: Monthly Updates and Insights February 2025

### All in Together: The Origins of Construction Safety Week—Construction Executive

Building a safer industry is the foundation of Construction Safety Week. This week-long campaign started in 2014 when more than 40 companies joined forces to promote safety.

## Robot Takeover: New Wall-Scaling Robots Are Saving Construction Companies Time, Product and Personnel

Safe to say, wall-scaling robots are gaining popularity in the slow-to-adopt-technology construction industry, and it might just be for the very reason people claim to fear robots: They're replacing people—but those people are okay with it.

## Construction Futures: January 2025 Economic Roundup

While construction backlog, spending, and overall momentum slowed in the first month of the year, contractor confidence is unyielding.
