

Bridgeville Area Lions Club

Plastic Film Recycling Project

A sample of some items that can be recycled:

Grocery bags

bread bags

bubble wrap

cereal bags

dry cleaning bags

Ice bag

newspaper sleeves

pallet bags

plastic wrap

produce bags

How can you participate?

1. Collect your plastic.
2. Put it in the container outside the clubhouse.

Where does the plastic go?

The plastic is donated to Trek Decking. They use the plastic in their decks and other products.

What will the Club receive when we collect 500 lbs.?

The club will receive a bench, to be donated to a community organization that is interested in receiving one. We can receive 1 bench every 6 months. The more plastic collected the more we protect our environment.
