Backup & DR Matrix

		11:11 SYSTEMS	assured data protection	DartPoints	DataCanopy	DATABANK Data Center Evolved™	DATAPRISE
Provider	link to provider's Pathfinder profile	11:11 Systems (formerly Green Cloud Defense & iland)	Assured Data Protection	DartPoints	Data Canopy	DataBank	Global Data Vault
Backup & DR Platform	software or hardware platforms used for backup or replication of client's on-prem IT environment	Veeam, Zerto, Carbonite (Double-Take), Cohesity	Rubrik, Dropsuite	Veeam, Zerto	Veeam, Zerto	Actifio, Veeam, Zerto	Veeam
Backup & DR Locations	data center locations that provide offsite backup, and optionally DR, for client's on-prem IT environment	US (West, Central, East), Canada, UK, Europe, Singapore, Australia	US (East), UK, Singapore	US (Central, East)	US (West, Central, East)	US (Central)	United States (West, Central)
Managed Backup (On-Prem + Cloud)	software or hardware platforms capable of backing up data locally and sending it off-site for storage and retrieval back to on-prem environment	Cohesity, Veeam	Rubrik	Veeam	No	Actifio	Veeam
Cloud DR	software or hardware platforms capable of recovering workloads in the cloud	Veeam, Zerto, Carbonite (Double-Take)	Rubrik	Veeam, Zerto	Veeam, Zerto	Actifio, Veeam, Zerto	Veeam
SAN Replication	native replication from customer's storage platform to like platform at provider data center	No	No	No	No	No	No
Manage Existing Solution	takeover management of customer-owned backup or replication platform	Cohesity, Veeam, Zerto	Rubrik	Veeam	No	No	Veeam
-	**-**	-	-	-	-	-	-
SaaS Sources	support backup and/or recovery of Office 365, Salesforce, etc.	**Backup:** Microsoft/Office 365	**Backup:** Microsoft/Office 365, Google Workspace	**Backup:** Microsoft/Office 365	**Backup:** Microsoft/Office 365	No	**Backup:** Microsoft/Office 365
Virtual Sources	support backup and/or recovery of VMware, Hyper-V, KVM, AHV, etc.	**Backup:** VMware, AHV **DR:** VMware, Hyper-V	**Backup:** VMware, Hyper-V, AHV **DR:** VMware, Hyper-V, AHV	**Backup:** VMware, Hyper-V, AHV **DR:** VMware	**Backup:** VMware, Hyper-V **DR:** VMware, Hyper-V	**Backup:** VMware **DR:** VMware	**Backup:** VMware, Hyper-V **DR:** VMware, Hyper-V
Physical Sources	support backup and/or recovery of physical machines such as Windows, Linux, HP-UX, Solaris, etc.	**Backup:** Windows, Linux **DR:** Windows, Linux	**Backup:** Windows, Linux, Solaris, HP-UX **DR:** Windows, Linux	**Backup:** Windows, Linux **DR:** Windows, Linux	**Backup:** Windows, Linux	**Backup:** Windows, Linux, Solaris, HP-UX **DR:** Windows, Linux	**Backup:** Windows, Linux **DR:** Windows, Linux
IBM Sources	support backup and/or recovery of IBM AS/400, AIX, Mainframe	No	**Backup:** AIX	No	No	**Backup:** AS/400, AIX, Mainframe	No
Endpoint Sources	support backup and/or recovery of end user devices such as Windows/Mac desktops, Apple/Android mobile devices, etc.	**Backup:** Windows	No	**Backup:** Windows	No	**Backup:** Windows	**Backup:** Windows
Public Cloud Sources	support backup and/or recovery of public cloud VMs such as AWS, Azure, GCP, etc.	No	**Backup:** AWS, Azure, GCP, Oracle	**Backup:** AWS, Azure, GCP **DR:** AWS, Azure	No	No	**Backup:** AWS, Azure
