

LAN DA

Architecture Undergraduate | Designer | Artist | Craftsman

PERSONAL STATEMENT

- ◆ Meaning of life for me is make everyone's life little bit better by creating beautiful things in life. I am a dedicated architecture student specializing in the integration of digital and AI tools to complement traditional design methods such as hand-drawing and model-making for project presentations. With years of experience in the arts, I have developed a strong aesthetic appreciation, which has significantly contributed to my architectural design work.
- ◆ My passion for mathematics and physics fuels my problem-solving abilities, enabling me to approach design challenges with a logical and creative mindset. Additionally, my outgoing personality allows me to connect with people effortlessly, making me an effective team player who values collaboration and the well-being of a group.

EDUCATION HISTORY

- ◆ **MANCHESTER SCHOOL OF ARCHITECTURE** 2022 - Present
- Employed as graphic designer for Climate action group within MSA, and co-led multiple architectural and crafting events.
