- #LivesOverLuxury March on the DNC/Biden, from the Liberty Bell at 6th & Market St. to Joe Biden's campaign headquarters at 1500 Market St. to declare our independence from two corporate parties that do not care about poor people.

Join the POOR PEOPLE'S ARMY!

- We are a non-violent movement that protects the lives and economic human rights (housing, food, clothes, healthcare, income) of poor & working people.
- We aim to keep people alive through "Projects of Survival," build and educate our army, hold actions and advocate, and strengthen our international solidarity.
- Revolutionary change is on the horizon as more people are losing faith in capitalism, a system that neglects and abuses many. Our movement teaches that "we are the answers to our problems," and we need the power to control our destinies.
- The government's response to Covid-19 and the economic depression has been crippled by systemic racism and economic discrimination, leaving minorities and those living in poverty more vulnerable to the virus.
- The Poor People's Army seeks to unite the poor to take control of society's wealth and resources in order to end oppression and inequality. Now more than ever we need to put Lives over Luxury!!!
