My children absolutely love this place - and so do I. Chris and Wally are the owners of Hanson music studio and are a delightful father and son team. My children were getting totally burned out after four or five years of classical piano instruction and we're ready to quit and were crying when I took them to their lessons. Within 3 to 4 weeks after transferring to Hanson music we had a week off because it was the fifth week of the month and my daughter cried when she found out we were NOT going.

I have been a student with Hanson Music Studios for almost 9 years now. When I first started with Wally Hanson, I knew absolutely nothing about music or guitar. Wally has been a patient and effective teacher and has helped me steadily improve my guitar playing.

Visiting with the Hanson Music Studios is a great experience. This isnt another run of the mill music lesson team. It's family. They want to know what you love, they are great active listeners. And that makes all the difference in your music lessons. From singin' lessons, to guitar studies, all the way to Jazz Trumpet, you'll love what you'll learn, and you'll find that it fills your soul. You'll leave every lesson with a smile, I guarantee it!

Working with Hanson Music Studios is incredible. One of the most comfortable learning environments for music lessons. In fact you don't feel like a stranger, you feel like family. They are very gifted and musically inclined, and that rubs off on you. You bring that home when you practice and play for your family and friends.

They are very understanding, and they teach you to love music in your own special way. You guide your own learning experience with Chris and Wally step by step, and they have your back through and through. If you're looking for more positivity and love through music, you've found it.

Chris and Wally excel in music theory and their practical application approach with the students makes it easy to grasp clearly. Wally has been giving guitar lessons to my intermediate level husband and sister and Chris has been giving me piano (intermediate) lessons as well. We are very thankful for their method and approach!

Taking piano lessons from Chris Hanson via FaceTime has been a unique and wonderful experience! It feels like we are in the same room despite being 600 miles apart! I highly recommend Hanson's Music Studio! They are professional, talented, knowledgeable, and great teachers!

Both my kids have been taking piano lessons with Chris for several years now. He was their 3rd piano teacher, but the first one that my kids actually enjoyed working with. Both have learned a lot and enjoyed the process. My daughter has also started taking voice lessons and has learned to genuinely enjoy both piano and singing while working with him. Thanks Chris!

The Hanson's quality of teaching is top caliber and their own skill levels are top level. Whether you want to improve your talent and skills you already have, or completely learn a new talent they can do it ! They are very professional and very talented! I personally have been taking lessons from them and have improved drastically. They provide a great atmosphere where you can feel comfortable to be yourself and it is also kid friendly.

I love how patient and professional Chris is with my son! He is also very supportive and excited for his growth. Chris has done a great job training his voice. Highly recommended!

Kendall Hanson

Both of my sons have been taking guitar, piano and voice for over 15 years. Wally & Chris's love for music and teaching is their passion and it shows! They have also been grooming our toddler with singing, piano, guitar, rhythm instruments, and dancing. Highly recommended!
