

Seaweed Extracts

Daiminta Phytolen

SL

Liquid product contains high concentration of Seaweed extract of "Ascophyllum nodosum" combined with wide range of organic substances

Composition	W/V%	Composition	W/V%
Seaweed extract	17.5	Organic Nitrogen N	1.4
Polysaccharides	11.7	Folic acid	0.47
Free amino acids	7.1	PGR	0.47
Organic acids	21	Cytokinin	0.005

Features

- Improve vegetative growth
- Increases fruit coloration and quality
- Anti stress agent against biotic and abiotic stress
- Provide plant energy to realize metabolic processes

Phytolen Ocean

SL

Liquid product contains high concentration of Seaweed extract of "Ascophyllum nodosum" combined with cytokinetic activity.

Composition	W/V%	Composition	W/V%
Seaweed extract	25	Potassium (K ₂ O)	5.25
Organic Matter	37.5	Mannitol	1.75
Fulvic Acids	21.8	Alginic Acid	3
cytokinetic activity	250 PPM		

Features

- Improve vegetative growth
- Increases fruit coloration and quality
- Anti stress agent against biotic and abiotic stress
- Provide plant energy to realize metabolic processes

WSP

Solid product contains high concentration of Seaweed extract of "Ascophyllum nodosum" combined with wide range of organic substances and macro elements

Composition	W/W%	Composition	W/W%
Seaweed extract	25	K2O	6
Amino acids	25	P2O5	1.52
Mannitol	1.37	CaO	0.67
Alginic Acid	3.75	MgO	0.48
cytokinetic activity	250 PPM	Mo	0.2

Features

- Improve vegetative growth
- Increases fruit coloration and quality
- Anti stress agent against biotic and abiotic stress

Daiminta Ekolen Bloom

SL

Liquid product contains high concentration of Seaweed extract of "Eklonia Maxima "

Composition	W/V%	Composition	W/V%
Seaweed extract	30	NAA Amide	1.2
Amino acids	3	(NAA)	0.45
Folic acid	0.1		

Features

- Improve flowering and fruit setting
