

Parent and Teen Driving Log

Student Driver DL #

Name of Parent/Guardian

Name of Student Driver

The Driving Log must include 30 hours of driving time, including 10 hours of driving where headlights are required. (Evening, night, rain, fog and snow)

We recommend starting out with drives at 15-minute intervals at first. Then you can get up to 30 minutes and finally 1 hour of driving with your new driver. All new drivers struggle to understand how the vehicle operates, and they need small instructions at first and should do only short times of driving as they are not accustomed to the mental and physical demands of driving. Be patient with your new driver. They want to be safe and every new driver learns at their pace.

NOTE: PLEASE FILL OUT ALL COLUMNS COMPLETELY

Date (M/D/YYYY)	Skills Covered	Start Time End Time	Drive Time	Night Driving	Notes on deficiencies and improvements
