

Chapter 224 Report

Chapter 224 currently has 260 lifetime members. We also have 2 pending memberships. AVVA Currently has 29 lifetime members and one pending.

Our color guard is active with many events. The rifle squad also was very active over the last months.

Bob K oversees our funeral details. Of course, this group of Vets is way too busy. I guess that is normal for all chapters.

We completed our election for President, Vice President, Secretary, Treasurer, and board members. All elected members were duly sworn in accordingly on May 21st, 2024.

We have a wonderful group of Vets that visit nursing homes to listen and talk to the many Veterans living there. That is a much-loved event for our veterans also and the vets living there.

It was scholarship time for Chapter 224. We had a great completion for our scholarships. The top score was Steve DeRyter scholarship. The winner of this scholarship received \$1250.00. The scholarship is funded by the Steve DeRyter fund. We had three other winners of between \$500.00 and \$1000.

Our board members worked on and passed a better guideline on the requirements for our essay completion. This will make the process simpler and easier to use. Makes it more fair to all and easier to follow the process.

Memorial Day was a very busy day for Chapter 224. We took part in the parade in De Pere. Some of us rode in the trailer and handed out flags to the children along the parade route. After the parade there was a event at Voyager park. Our chapter presented the colors. The De Pere Parade and the event at Voyager Park every year is well attended and loved by all. They are one of our major events to honor past Veterans who gave all to keep our freedom, and to honor all that serving today.

There is a tiny house project planned for Green Bay. It has a lot of resistance along the way, but the land is finally approved by the city council. Let's see how long the next step will be.

At my last meeting, I invited my Chapter 224 members to attend our meeting in Waupaca on June 22nd, 2024. explained that they are all welcome to come see what these are like in case they would like to a be a delegate. Also told them if they attend, they will come "at large."

Delegate:

Steve Rosinsky
