

**REPORT ON
CONSTRUCTION OF THE THIRD
SAFE AND CLEAN WATER
BOREHOLE IN N'DJAMENA
ENVIRONS, CHAD; IN THE YEAR
2022**

- Presented by Emmanuel Akinnuwa -

14th November, 2022.

INTRODUCTION

The proposal for the construction of water boreholes for safe and clean water for the communities in Chad for the year 2022 was for three boreholes. In May, JHB Hope Foundation provided for two boreholes which were duly completed and reported. Then in July, the third one was provided for but was unable to be completed until October due to the raining season in Chad.

DRILLING AND CONSTRUCTION PROCESS

The drilling and construction process for the Toukra East project kicked off as usual on the 4th of October, 2022 at 8:00am prompt.

The first instance of water was met at about 10m in the ground due to the rain as explained by the engineers, but the process continued till the required 45m at the seabed. At around 4:00pm, the drilling process was completed and a partial installation was made before calling it a day.

The remaining part of the installation was completed on the next day and the manual pumping process for cleaner water was also completed. Then, on the 8th of October, the team visited the site for the cementing and final process of the project which went hitch-free.

The borehole was therefore made available to the community, who in return showed their appreciation to JHB Hope Foundation for their good gesture. Details available in the attached video.

PRESENTAION

Below are the pictures from the project.

QUALITY OF WATER

The quality of water from this borehole is clean, odourless and safe to drink.

APPRECIATION

Our utmost appreciation goes to the Lord, who continue to bless his people in Chad through the arms of JHB Hope Foundation, USA. And our appreciation also goes to JHB Hope Foundation, USA for allowing the good God to touch lives through them. God would continue to manifest himself to you. Amen.

We want to also use this medium to appreciate everyone who has in one way or the other contributed to the realization of this project. May the good God continue to be enough for us all. Amen.

CONCLUSION

We cannot stress enough, the impact of the generosity of JHB Hope Foundation, USA in Chad. An impact which has not only affected lives presently but for generations to come.

Thank You JHB Hope Foundation, USA; for the just concluded project and for the previous ones. May the blessing of the Lord Jesus be ever increasing with you as you go from glory to glory. Amen.
