

REPORT ON THE CONSTRUCTION OF A WATER BOREHOLE FOR SAFE AND CLEAN WATER IN CHAGOUA AREA OF N'DJAMENA, CHAD

- Presented by Emmanuel Akinnuwa -

09th May, 2024

**DONATED BY
JHB - HOPE**

INTRODUCTION

This report details the proposal submitted to the JHB Hope Foundation, USA, for the construction of safe and clean water boreholes in N'djamena, Chad, for the year 2024. Specifically, it focuses on the Chagoua area, which has benefitted from this project. The borehole provided was constructed per the description outlined in the proposal.

DRILLING AND CONSTRUCTION PROCESS

The drilling and construction process started on the 19th of April 2024 and was completed on the second day which is the 20th of April 2024.

Experienced technicians conducted the drilling and installation process using suitable machinery and equipment. The borehole was drilled to an adequate depth, guaranteeing access to clean and safe groundwater.

The borehole is situated before a church, Winners' Chapel Chagoua and it will serve the church and many other people in the area which is approximately a hundred and fifty people.

PRESENTATION

Here are the pictures from the project along with a link to the corresponding video.

QUALITY OF WATER

The quality of water from this made-available borehole is clean, odourless, and safe to drink.

APPRECIATION

The church and its members showed great appreciation towards the instalment of the borehole. Also, we were able to speak to some of the people in the area who were all thankful for the kind gesture from JHB Hope Foundation, USA.

We extend our heartfelt appreciation to everyone involved in the successful installation of the clean and safe water borehole in the Chagoua Area. This project has significantly impacted the lives of community members by providing them with access to clean and safe drinking water.

We commend the hard work and dedication of JHB Hope Foundation, USA, the technicians, and the church and community members of Chagoua, who contributed to the success of this initiative. Your efforts have not only improved health outcomes but have also enhanced the overall quality of life. Thank you for making a positive difference in the lives of others.

CONCLUSION

The installation of the clean and safe water borehole in Chagoua Area of N'Djamena, Chad; marks a significant milestone in improving the lives of community members. This project not only provides access to clean drinking water but also empowers the community to take ownership of its water supply, ensuring its sustainability for years to come.

We extend our heartfelt gratitude to the JHB Hope Foundation, USA. May the grace of God continue to abound for you and your loved ones. Amen.
