HSI ONLINE SAFETY TRAINING COURSES

You can now get access to some of the most popular titles from the HSI safety training library. The HSI Online Safety Training courses are delivered just like our other blended courses, but no in-person skills evaluation is required.

Upon successful completion of an online safety course, a Certificate of Online Training will be issued. All courses are developed to OSHA standards.

Intended audience

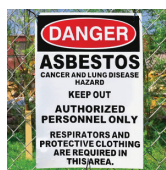

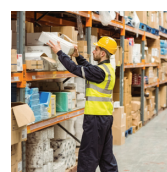

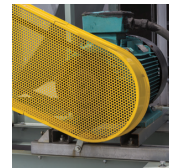

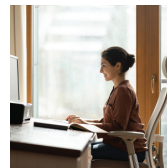

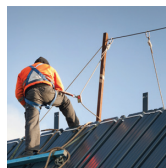

Anyone who needs awareness-level training or a Certificate of Online Training for one or more of the HSI Online Safety Training courses offered.

Delivery options

Blended Learning, with no requirement for in-person skills evaluation

Student requirements

- After completing the online course, a Certificate of Online Training will be issued.
- Each course is one credit per student.
