

The next best thing  
to surgical scrubbing.

Patented brush and cleaning device.  
Reduce infection and contamination in your world.  
Disposable system makes it easy to use.

**Dr. Handi-Clean**  
SINGLE-USE DISPOSABLE SANITIZER

The next best thing to surgical scrubbing.  
Cleans better and more thoroughly than the rest.

Hundreds of tiny scrubbing nodules gently and thoroughly cleanse fingers and the nailbed.

**Dr. Handi-Clean™** does more than just deliver a sanitizing foam used in a gentle hand wringing action. It removes infectious material reducing your costs through a better cleaning method.

**Dr. Handi-Clean™** cleans, scrubs and sanitizes deeper and better than existing solutions. Our patented brush and delivery system provider for total cleaner hands works to remove germs and infectious material.

One in 25 hospital patients contract at least one infection from a healthcare facility, costing over \$4.5 billion annually. These infections are associated with 90,000 preventable annual deaths of patients, Clostridium difficile (C. diff), or deadly diarrhea, affects 14,000 people in the U.S. each year.

Available in regular and small (tapered) sizes.
