

Building Quality Projects and Relationships

Facts Sheet

Noah Industrial is a specialty heavy industrial construction company who is licensed in 13 Southeastern states to self-perform new capital equipment installations and maintenance projects. From engineering to final commissioning, Noah has the capabilities to provide turn-key solutions for our customers.

PRIMARY INDUSTRIES

While we are broad in our experience, the industries where we have traditionally focused include Pulp & Paper, Chemical, Bioenergy, Wood Processing and Power Generation.

CONSTRUCTION TYPES

Mechanical construction is our primary focus, but we can also take a client's concept and develop a project from the ground up by utilizing relationships with engineering firms to deliver a complete EPC project including civil and electrical capabilities.

COMMITMENT TO SAFETY

Our team is dedicated to provide a safe work environment for our workforce. The promotion of safe work practices and consistent training ensures everyone stays invested in their personal safety as well as their coworkers.

QUALITY

We believe performing the highest quality work is the most important factor in maintaining relationships with our clients and we work diligently to maintain our high standards. A testament to this endeavor is our ASME "U" and NBIC "R" stamps, demonstrating our attention to detail and quality.

LEADERSHIP

Noah's leadership team leads by example and with integrity, incorporates years and breadth of experience, and strives to meet and exceed the expectations of our clients.

NOAH INDUSTRIAL LLC

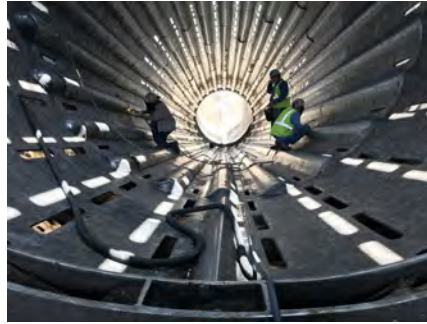

8195 Industrial PI, Alpharetta, GA 30004
www.NoahIndustrial.com | 770-887-4600
