

A background image of a glassblowing workshop. In the center, a glass vessel is being heated by a large, intense flame from a gas torch. To the left, another glass piece is visible, and in the background, a third one is being worked on. The scene is filled with the warm, orange and yellow light of the flames and the dark, industrial environment of the workshop.

A close-up, artistic photograph of a glassblowing process. Molten glass is being poured from a vertical rod into a glass mold. A bright, intense flame from a gas torch is directed at the base of the mold, heating the glass. The background is dark and industrial, with other glassblowing equipment visible. The overall atmosphere is one of traditional craftsmanship and intense heat.

Stölzle Lausitz

BORN IN FIRE.
