Encounters with the Deep – Charity Art Exhibition and Fundraiser

Auxilium Worldwide, a charitable nonprofit committed to global harmony, is partnering with the Green Space in Miami, FL to host a charity art show titled “Encounters with the Deep” to coincide with Fleet Week in May 2025. This exhibition will showcase works by artists who have delved deep within themselves by confronting mortality, either through the inherent risks of seafaring or by facing a battle that puts their life on the line. The bond between sailors and survivors is unmistakable, and this exhibit seeks to showcase art that reflects the depth of humanity and the resilience of the human spirit. Proceeds will benefit Auxilium’s work in both Cancer Research and Maritime Security.

Overview:

The “Encounters with the Deep” charity art exhibition is a testament to the indomitable human spirit, showcasing the artistic expression of those who have faced their own mortality at sea, in war or through illness. In each case, the artists have reached deep within themselves and have used art to share their encounters with the deep. This powerful exhibition will feature artists whose work demonstrates resilience, courage, and the will to overcome adversity. Our goal is to create an immersive experience that celebrates the unwavering determination to fight, survive, and ultimately thrive.

Mission Alignment and Use of Proceeds:

Proceeds from this exhibition will directly support two vital focus areas:

- 1. Cancer Research:** Auxilium Worldwide is dedicated to advancing groundbreaking cancer research. Funds raised will accelerate our pursuit of innovative, affordable, and effective cancer treatments. Our research includes studying the synergistic effects of anti-cancer compounds found in natural substances like curcumin, bee propolis, and various medicinal mushrooms (non-psychedelic).
- 2. Ocean Stewardship:** Auxilium is committed to promoting human security through ocean governance and sustainable blue development. Funds will support efforts in the Caribbean to combat drug smuggling, illegal fishing, human trafficking, and illicit arms movements. This includes addressing the aggressive actions by groups like the Haitian Gangs that threaten human security and Haiti’s connections with the region and the wider world.
