

## TARIFF REFUND BUYOUT – FUNDING ASAP

### Turn Future Tariff Refunds Into Cash Today

Monetize your IEEPA tariff refund claims now with an immediate buyout, instead of waiting months or years for government refunds.

### Why This Matters

- The Supreme Court's invalidation of IEEPA-based tariffs has opened tens of billions of dollars in refund opportunities.
- Refund timelines remain uncertain as CBP and federal courts determine processes, with potential delays involving protests, litigation, and liquidation timing, which may likely take years to actually receive refunds.

### Our Solution: Refund Buyout With Funding ASAP

We purchase all or part of your company's IEEPA tariff refund claim and provide cash up front—while we assume the timing, procedural, and legal risk of eventual recovery.

### WHAT WE HANDLE:

- Review CBP/ACE entry data and calculate refundable duty exposure.
- Monitor liquidation dates, file and track protests, and manage Court of International Trade requirements.
- Provide a transparent buyout contract: you receive funding within days; we pursue the government refund.

### Ideal Companies

- U.S. importers who paid IEEPA tariffs in 2025–2026.
- Importer of Record on CBP Form 7501, or suppliers able to cooperate.
- IEEPA duty totals of \$250,000 or more.

### What You Gain

- Immediate, non-dilutive capital for operations, inventory, or growth initiatives.
- No need to manage complex CBP, litigation, or compliance processes.
- Downside protection: reduced or delayed refunds are absorbed under the buyout structure.

### Simple 3-Step Process

1. ELIGIBILITY REVIEW – Provide ACE entry data; we return a preliminary estimate.
2. OFFER & AGREEMENT – Transparent terms: purchase price of 40% to 45% of total eligible refunds. Non-recourse. No payback. No risk.
3. FUNDING ASAP – Funds wired upon execution and verification; we pursue refunds end-to-end.

### Compliance & Expertise

- Trade-specialist legal and customs teams experienced in IEEPA refund strategy and CBP protest litigation.
- Processes aligned with CBP rules and evolving federal court guidance.
