- MMCC has the right to accept or reject any items at drop off.
- MMCC will provide hanging racks and tables to display consignment items.

Preparation for Consignment Sale

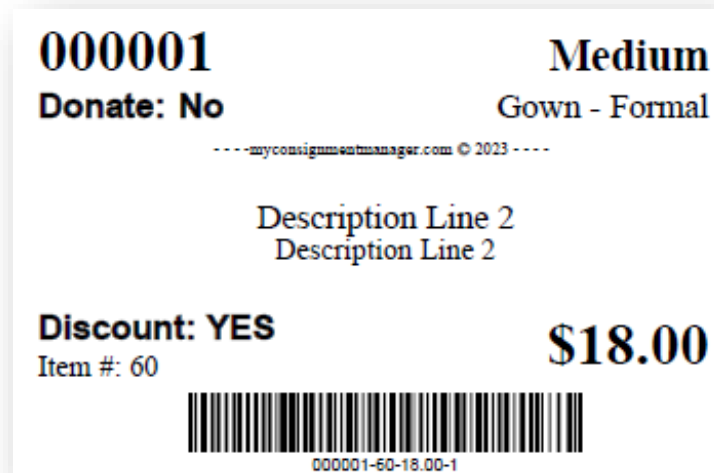

- Consignor is responsible for appropriately tagging, sorting, and organizing all items per guidelines prior to drop off at the sale. See Seller Registration Attachment for more details about entering items into the sale.
 - Consignor must provide their own hangers which will not be returned.
 - Place your completed tag on the left shoulder or side of each of your items with a safety pin or tagging gun.
 - Garments should be hung on hanger with hook to the left like a question mark.

- Since adult clothing sizes are not consistent and often do not have a size on the tag, please measure the flat waist size of the garment (times 2 for front and back) and add to the tag description. If the waist is elastic, measure unstretched and stretched waist size. Example: Waist 42" or Waist 24-36"
- For clothes: Safety pin the tag to the top right corner of garment, when it is facing you. No straight pins or staples! Pin pants, skirts, and shorts at the top of the hanger, with the zipper facing front. Hang clothes on appropriate sized hangers, with the opening of the hanger facing left. (see picture)
- If your clothing is falling off the hanger at home, then it is going to fall off the hanger at the sale. Pin it to the hanger so that you do not risk your items falling off and getting lost.
- Accessories / non-clothing items need to be labeled with the cardstock tag attached using clear packing tape. No scotch tape!!!!
- Small or difficult to tag items such as jewelry or accessories should be placed in ziplock bag with tag taped on the outside. Any items placed in a Ziploc bag must have a ticket in each bag. Tape bag together with enough tape to keep it closed.
- Tag items with multiple pieces grouped together on a hanger, or in a bag or box.
- Shoes should be in a box, ziplock bag or attached together with pin, zip tie, rubber band, or pipe cleaner. Attach the tag to the sole.
- If your item needs more description / instructions please pin / tape that onto the item. Tags will be removed during checkout sales process.
- Any item found without a tag during the sale will be placed in a lost and found area. MMCC will make every effort to find any lost tag. If the tag is not found, the item will be available at pickup for the consignor to identify and claim. If it is not identified during pickup, it will become the property of MMCC.
- The consignor understands and agrees that any item marked "donate" on the tag will become the property of MMCC and will be donated to charity. Consignor will not be able to get items back.
- The consignor understands and agrees that any item not picked up during pick-up hours following the sale will become the property of MMCC. Consignor will not be able to get items back.

Tagging

- You must enter EACH item / set that you plan to sell into the system. Each item brought to the sale must have only one unique tag with its own unique item number for each item to be sold (seller cannot make copies of tags). If you have multiple quantities of an item, you can add the number when entering them. If you have a group / set of items, that can be entered as one item (ie: complete costume and all accessories). One full costume, outfit and accessories count as one item and can be sold together.
- **Print your tags on minimum 60-67# white or pastel cardstock paper** (NO dark colors are acceptable; no multicolored or patterned paper). The system will print up to 8 tags per page.
- Use an inkjet or laser printer (no dot matrix) with a normal (not best quality) printout to print tags. Faded barcodes may not work and some that are too dark may not work because the lines bleed into each other. The barcode needs to appear crisp and clear. Up to 8 tags print on one page. Cut out after printing and put on your items.
- Do not place tape over the barcodes.
- Items that are missing tags will not be sold and will be available for pickup at the end of the sale.
- MMCC will only sell items at the price entered into the online system and printed on the tags.
- MMCC Tag layout

- If you are using tags and transferring items from another sale: verify 3 items on your tags. Make sure that the 1) seller number on printed tags matches the registered seller number in this sale, 2) tag's discount/donate options do not conflict with those on your tag, and 3) tag's description length from the previous tag is not too long for your sales' tag. Simply generate a list of tags to print and the system will confirm this for you.
- If you want to change price or details on a tag, you must enter details in the system and REPRINT the tag. Do not handwrite on the tags.

Tagging tips:

- Sellers that price reasonably and allow items to be discounted at the half-price sale generally sell a high percentage of their items. There is no limit on how many total items you can bring to the sale as long as they all meet our quality standards.
- Sort your items by Category and Size before you sit down to enter them online. The system remembers all previous information entered except price, so by having them sorted you can take advantage of the pre-filled fields and re-enter only price and description fields. This will make your tag time even more efficient!
- Voice entry is available.
