Incoplax

INFO-COMM SOFTWARE PLATFORM

All needs in one platform

iN Incoplax

Distributed IP-PBX with flexible routing, call recordings and speech technologies

Unified communications include voice calls, video conferencing, messaging, email and file sharing

Omnichannel contact-center (inbound and outbound) with WFM and QM features

Low-code builder improves collaboration, reduces the cost and complexity of development

The configuration is open, allowing modifications to any part or the creation of custom elements.

Multi-tenancy: A hierarchical structure for enterprises and cloud service providers

Fault-tolerant distributed server clusters: Active-active redundancy for a high-availability setup

Advantages

- **All-in-one:** IP-PBX + UC + Omnichannel CC + Builder in one box

- **Deployment:** public and private cloud or on-premises deployment

- **Effective sizing:** minimum system resource requirements

- **Incredible speed of implementation:** launch it in a few days or even hours

Technologies

- **Microservice architecture:** the highest level of reliability and scalability

- **Low-code/no-code designer:** object model, handlers, scenarios, processes and applications

- **Comprehensive REST API:** HTTP(s) and WebSocket with real-time subscriptions

- **Key components behind the scenes:** Linux, Docker, PostgreSQL, NodeJS, TypeScript

About us

The INCOPLAX platform is a new software product in which we have invested many years of professional experience, knowledge and competence. The technology used in our product allows us to ensure the highest performance and reliability.

TEAM

Our team consists of experts with experience in the development and implementation of contact centers, software IP PBX and other communication systems. Our company is located in Portugal and Serbia.

EXPERIENCE

Our company consists of architects and developers who have a wealth of experience in building platforms, such as Oktell and Infinity. We have completed over 10,000 projects in the CIS region.

Partnership

01

Business model

Let's grow together with the customer service market. We make sure that all prospects and clients are assigned to partners.

02

High commission

Earn more money. We share licenses commissions with our partners in impressive range 40% – 60% of GPL prices.

03

Deal registration

Invest time and resources into developing sales opportunities. Get securing a level of exclusivity and special support from the vendor.

04

NFR licenses

Get involved in the platform, use it for your own needs, make presentations, make experiments and implement POC.

Incoplax

Let's build and win together
