

**WAYDOO**

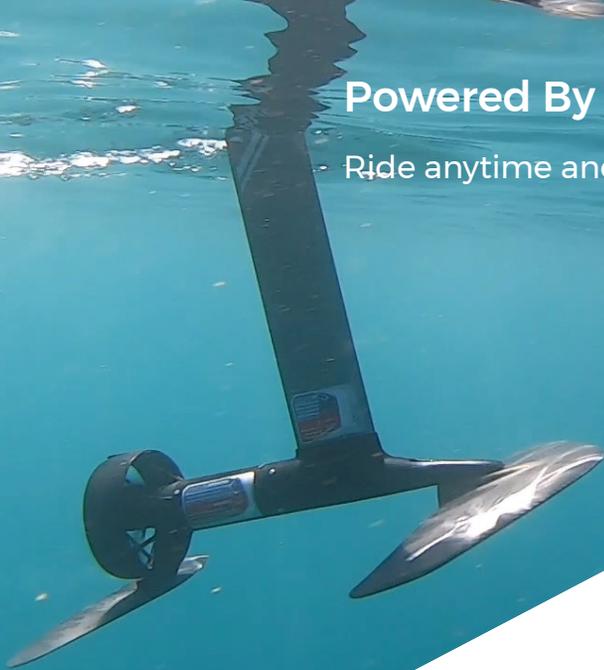

# Waydoo Flyer ONE

The All-In-One Electric Hydrofoil

## Powered By A Robust Propulsion System

Ride anytime and anywhere on oceans, lakes, and rivers.

## The Breakthrough All-In-One Technology

The modularized design makes it even easier to set up.

## How It Works

24 Speed  
Options

2-Hour  
Rapid Charge

85min  
Maximum Ride

Bluetooth  
Connection

FlightFreeze  
Safety Lock

Built-In  
GPS

Simply roll up on your nearest beach, remove your PowerFlight Cell battery from the compact carry case, snap it in, and you're ready to go become one with the water. Using the handheld Bluetooth Jet ONE controller with 24-speed options, you can always have full control over their speed and can choose between a variety of kneeling, sitting, and standing positions.

Waydoo Flyer ONE offers a long-lasting ride for 55-85 minutes, allowing you to experience the thrill as you carve through the water at an unbelievable 25mph, giving you the freedom to explore without limits. The Jet ONE Controller will automatically lock when the rider falls into the water.

## 2 Types of Main Wing

**Explorer Wing: 32 x 11.3 x 2.5 Inch**

- The perfect option for beginners to enhance stability for a smoother carving experience.

**Patroller Wing: 27 x 8.6 x 1.5 Inch**

- Tailored for professionals to enjoy the ultimate gliding experience.

## Flyer Pod

A supportive inflator accessory that can transform a rider's experience by offering increased stability, and lowering the chance of falling into water.

## Outboard Motor Accessory

With an accessory, Waydoo Flyer ONE can be used as an electric rear propulsion motor for your freshwater boat.

## 2 Sizes of Mast

**Explorer Mast: 25.6 Inch**

- Easily matching either Explorer Wing or Patroller Wing. A must-have option for beginners.

**Patroller Mast: 31.5 Inch**

- Most challenging option for experienced riders.
