

SIX STEPS TO BECOMING A CERTIFIED ISOPET® VETERINARIAN

About Us

IsoPet® and our patented Precision Radionuclide Therapy™ PRnT™ represent innovative approaches in the treatment of cancer. IsoPet® is changing the way cancer is treated!

Our partners, F.X. Massé Associates, Inc., are medical physics experts in radiation safety, shielding design, and regulatory compliance. They'll guide you seamlessly through each step.

What is IsoPet®

IsoPet® is a medical device delivering targeted radiation (up to 400gy) to solid tumors while minimizing damage to surrounding healthy tissues.

Vivos Inc. is here to support you through each phase of the process of becoming a Certified IsoPet® Veterinarian.

Industries We Serve

- ✓ Private Vets
