## 10. Fabulous energies of 2026

November 8<sup>th</sup>

We still have Neptune and Saturn together in Pisces, however in February, 2026 they will be exactly conjunct at 0 degrees Aries. This will give some extra power, temporarily, and can pack a bigger punch. Then they will go back to their regular travels together through Aries. This is a powerful time and we need to use it well.

Another date we have chosen is Jupiter (in Leo) in opposition to Pluto in Aquarius) on July 20<sup>th</sup>.

It is up to us how we receive these energies. Our attitudes and openness can turn more negative influences into positive ones. Meditations will be given on how to use these energies in more beneficial ways.

We will provide transit charts for each person for both dates. We will, however, need date, time, and location of birth, so the charts can be prepared.

11/8/25, 9:30am-3:30pm

Advanced Registration: \$120.00

Registration: \$145.00
