

Mission Conversion Services Alliance

# Transition Update

As we complete the second week of our transition, we remain eager to deepen our understanding of the critical scope we will oversee and to continue building relationships with the personnel who will be part of the MCSA team.

At the Paducah DUF6 plant, we have initiated due diligence efforts, including facility walkdowns, field observations, and document reviews. Similar activities are taking place across the Paducah Site in areas such as Utilities, the Fire Department, Emergency Response, and Protective Forces.

In the coming two weeks, our focus will remain on field transition activities at Paducah, alongside program and document reviews encompassing the new OSMS scope.

We look forward to working with all of you and collaborating toward a successful transition.

**Rob Gentry,**  
**Paducah Plant Manager**
