

PERRY TOWNSHIP

CEMETERY RULES & RECOMMENDATIONS

Perry Township has the following rules regarding grave decorations for safety and maintaining the beauty of the landscape.

- In-ground annual plantings are allowed on upright monument lots only and should not extend further than twelve inches from the front or rear of the base of the memorial!
- Flowers must be placed in plastic or wood containers.
Glass containers are not allowed.
- Grave decorations must not interfere with cemetery operations or maintenance. Such decorations will be removed.
- All cemeteries located in Perry Township will undergo a spring and fall clean-up. **(April 1st and October 1st)**.
- If you wish to save your decorations, be sure to remove them prior to the clean-up start dates. All decorations that are left on graves during these clean-up periods will be removed.
- Perry Township employees and Trustees will make every effort not to damage any grave decorations. However, we regret that we cannot guarantee that all decorations will remain free from damage or loss. Therefore, we cannot accept responsibility for these occurrences.
- Any questions or concerns relating to cemetery rules, please contact the Perry Township Board of Trustees.
