

**Release Date: February 23, 2026**

**Big Chief Donald Harrison**

**THE MAGIC TOUCH**

**One Track 9 Unique Styles**

NEA Jazz Master Donald Harrison's new recording "The Magic Touch" (multi-genre singles) on Roots To Infinity Records is one song recorded, produced, composed, arranged, and orchestrated in ten different styles of music. The recording continues his 2005 discovery of the multi-genre singles concept, as showcased on his album "3D," which features a series of songs in three distinct genres, including jazz, soul, and hip-hop. The Magic Touch features one song recorded in ten different styles of music, including post-bop, salsa, bossa nova, New Orleans second-line, chill trap hip-hop, roots reggae, soul, blues, and Afro-beat played in a manner true to their foundations. The tenth version is Harrison's signature nouveau swing style innovation, which mixes all the first nine styles into a coalesced modern acoustic jazz style.
