

★ ★ ★ Why Write In?

- ★ **Unopposed is not the same as unbeatable.** Four county offices have just one name on the ballot. One name means no debate, no scrutiny, and no choice for you.
- ★ **Accountability you can feel.** Leaders who face voters answer to voters. We will hold open office hours and publish what we do.
- ★ **Public safety, done right.** A Sheriff and Coroner who protect residents, respect rights, and tell families the truth.
- ★ **Your money, handled with care.** A Treasurer and Clerk focused on efficient service, honest records, and zero waste.
- ★ **Skagit first.** Farmers, small business, and rural neighbors deserve a county government that knows their lives, not just their tax bill.

PRIMARY ELECTION GIVES SKAGIT FOUR REAL CHOICES THIS NOVEMBER.

Statement As a Christian, sworn defender of the U.S. Constitution, government watchdog, Navy Veteran, father, and College Graduate I am confident I have the beliefs and background needed to better address law enforcement in Skagit County. I am committed to stopping the criminal invasion into Skagit County, restoring election integrity, and ending the misuse of public funds that has resulted in the worst public corruption our County has ever seen. I offer my real experience exposing public corruption, confronting Civil Rights violations, and reporting millions of dollars of waste, fraud, and abuse in our Government for those who want real accountability. Information	
Candidate Statement Skagit Valley roots Derrill has deep roots in Skagit County. He farmed the Skagit Valley for twelve years and rose to General Manager of the largest flower bulb farm in the world. He and his wife raised their three daughters in Mount Vernon, where he still calls home. Professional Experience An inventor and a builder Derrill worked in the high-tech sector, where he invented and patented a removable hard drive system that helped shape modern computing. He went on to serve as CEO of a technology company whose advanced computer upgrades were recognized by the NSA as critical for government use. His expertise earned him the highest civilian security clearance granted in the United States — a level of trust extended only to those whose judgment, discretion, and integrity have been tested at every stage of a career. Holding that clearance, Derrill has worked as a contractor at the West Wing of the White House and at the Pacific Naval Command Center (NIWC Pacific). In February he visited Vandenberg U.S. Space Force Base in Santa Barbara, California, as an observer. Credentials at a glance • Highest civilian security clearance in the nation • U.S. patent holder — inventor of a removable hard drive system • Former CEO of a technology company whose upgrades were recognized by the NSA as critical for government use • Contractor at the West Wing of the White House • Contractor at the Pacific Naval Command Center (NIWC Pacific) • Twelve years farming the Skagit Valley; former General Manager of the largest flower bulb farm in the world • Author of ten children's books under the pen name Dr. Qooz • Continuing studies at Skagit Valley College	Contact https://fussellforcoroner.com PO Box 711, CLEARLAKE, WA 98235
Statement The biggest challenge facing coroner's offices nationwide is information delays that prevent families from finding closure. One year ago, Derrill's only son was killed in a single-car crash. The mandatory autopsy process left the family without control over the timing for closure or funeral arrangements. As Coroner, Derrill will ensure families have a direct line of communication, so they receive timely updates and the support they need during the most difficult moments of their lives. With decades of hands-on experience and a lifetime of navigating real-world challenges, Derrill brings a depth of perspective and wisdom that only extended time can forge — effectively more than doubling the practical qualifications he can offer compared to someone earlier in their journey. His roots run deep in the Skagit Valley, and he has earned the highest levels of trust.
