

# AFFILIATIONS

Simply Golf continues to reach out to the local golf community to help wherever it can. Additionally, we have built relationships with members of the local medical and training community to provide a center for rehabilitation with a concentration on the golf swing. This results in the ability to return to golf at a faster pace based on improved mechanics and muscle improvement.

We also provide local high school golf coaches and their teams with a block reservations program. Coaches will also find our cloud based storage platform helpful when analyzing their players swings.

## GOLF SIMULATOR

Whether it's a range session, a quick 9 by yourself or a foursome with your friends, Simply Golf provides a true to life golf experience. With our simulators, you have access to hundreds of golf courses from around the world from Pebble Beach to St. Andrews.

We offer set tee times throughout the year to create league play for the beginner to the most advanced player.

Go to our website any day, any time and book your tee times with our easy scheduler software. Receive reminder emails and alerts to help schedule your next round.

Your clubs are not with you? No problem! Our facility is complete with all the clubs you need - mens, womens, kids

and seniors. We also have snacks and refreshments available for you during your round.

## GOLF TRAINING

Expert or beginner, female or male of any age, our instruction programs have the ability to help you improve. Combine industry-leading ball flight launch monitor technology and a comfortable, climate-controlled environment indoor setting to create a learning experience that breeds lasting results. At the end of every session you will have a digital video capture and cloud-based swing video sent to your email in box for your review.

We offer a variety of options including:

- Private lessons
- Internet training via V1 training portal
- Specialized post surgery training with licensed physical therapist
- Scholastic team/coach programs
- Side by side comparison with the games leading players

## SWING ANALYTICS

Swing analytics such as launch angle swing speed, ball speed and spin are important when fine tuning golf equipment. Our launch monitors can be used for all your equipment fine tuning requirements. We work with several local club fitters for all your custom club needs.
