ALL WEATHER | IMMEDIATE TRAFFIC | BUILT TO LAST

Smooth, Durable, and Reliable  
—Get Pavementra

- ✓ Asphalt Repair & Maintenance
- ✓ High-Quality Materials
- ✓ All-Weather Performance

## Pavementra REPAIR BY SYNERGY BUILDING TECHNOLOGIES

Pavementra is a next-generation solution engineered to deliver durable asphalt repairs regardless of weather conditions. It also provides effective patching for damaged concrete surfaces; however, for specialized concrete restoration, Cement-Lok by Synergy Building Technologies is the recommended product.

# The Pavementra

EASY AS

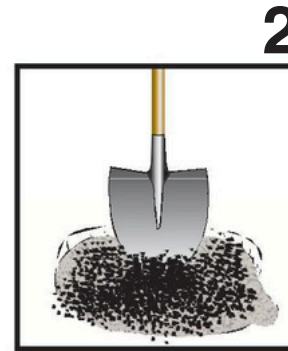

Engineered for resilience, **Pavementra** outperforms surrounding pavement in durability and can be trafficked immediately after installation. Designed for use in any weather.

- One year shelf life
- Set up time - Immediate
- Coverage - 10lbs per square foot per one inch depth

Clean out all loose chunks or debris using a stiff broom or blower to achieve a sound surface to bond to.

Place **Pavementra** in hole in layers of 3 inches at a time and tamp the area until firm. The last layer of **Pavementra** is to be 25% higher than the finished level.

Compact the **Pavementra** with a tamper, roller or by driving over it until the desired level is obtained.

To speed set up time and reduce tacky surface dust with sand or cement.

## READY FOR TRAFFIC

Before

After

BY

For over 20 years, Synergy Building Technologies has pioneered practical innovations in asphalt repair. With a focus on smart, field-tested solutions, we work closely with clients to develop engineered products like

**Pavementra** —designed for unmatched performance in all weather and traffic conditions.
