

BUILD A ROAD

ROAD STABILIZATION TECHNOLOGY

**LESS MAINTENANCE.
LAST LONGER.
SAVES TIME AND MONEY.**

Build A Road® is an advanced road stabilization technology that strengthens and protects dirt and granular roads, creating a smoother, safer, longer lasting surface with less maintenance and lower costs.

LESS MAINTENANCE

LASTS LONGER

SAVES TIME

THE PROBLEM

DUST & EROSION

POTHoles & WASHBOARDING

FREQUENT GRADING

HIGH MAINTENANCE COSTS

Unstabilized roads lead to constant maintenance, high costs, dust, erosion and poor performance.

THE SOLUTION

BUILD A ROAD

ROAD STABILIZATION TECHNOLOGY

Our proprietary, environmentally friendly formula penetrates and binds to road aggregates, creating a strong, durable surface that resists erosion, controls dust and extends the life of your roads.

- ✓ Stabilizes and strengthens existing roads
- ✓ Reduces dust and surface erosion
- ✓ Resists washboarding and potholes
- ✓ Improves load bearing capacity
- ✓ Withstands extreme weather conditions
- ✓ Environmentally safe & non-corrosive
- ✓ Works on all types of granular roads

PROVEN BENEFITS

LESS MAINTENANCE
Reduce grading and repairs.

LASTS LONGER
Extend road life and durability.

SAVES TIME
Spend less time maintaining roads and more time on what matters.

SAVES MONEY
Lower costs. Higher efficiency. Better ROI.

IDEAL FOR

CONSTRUCTION ACCESS ROADS

HAUL ROADS

RURAL ROADS

INDUSTRIAL SITES

MINING ROADS

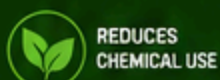

AGRICULTURAL ROADS

ENVIRONMENTALLY FRIENDLY
SAFE FOR PEOPLE, PLANTS AND WILDLIFE.

BUILT SMART. BUILT TO LAST.

REDUCES CHEMICAL USE

PROTECTS NATURAL RESOURCES

SUSTAINABLE ROAD INFRASTRUCTURE

**BETTER ROADS.
BETTER BOTTOM LINE.
BETTER PLANET.**
