Due to rising costs, we have recently had to review our lesson program pricing. As you aware your own living expenses have increased recently, so have our operating expenses. The following is a list of the products/services where we have seen the highest increase: Insurance, boarding, feed, fuel, and farrier.

It is never easy to raise prices. In fact, we have had countless conversations trying to figure out how to maintain our current price point. However, to maintain our quality property and business standards, it has become inevitable that we need to raise them slightly.

Thank you for your understanding.
